

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

## THURSDAY, MARCH 23

Thursday, 3/23/2017

Time: 9:30 AM-5:00 PM

### **AAGP Board of Directors Meeting**

Room: Fleur-de-lis A

#### **Session # M1**

*9:30 AM-12:30 PM: Executive Session-Open top Board members only.*

*1:30 PM-5:00 PM: Open Session-Any member who wishes is welcome to observe the open meeting.*

## FRIDAY, MARCH 24

Friday 3/24/2017

Time: 7:30 AM-5:00 PM

### **2017 Geriatric Psychiatry Review Course**

Room: Monet

#### **Session # W1**

Chair: William M. McDonald MD

Faculty: Chevelle Brudey MD  
Marie DeWitt MD  
James M. Ellison MD  
Andrea Iaboni MD  
Jennifer Gatchel MD  
Adriana Hermida MD  
John Kasckow MD PhD  
Maria I. Lapid MD  
Laura Marsh MD  
Vaughn McCall MD  
Arnaldo Moreno, MD  
Prasad Padala, MD MS FACHE  
Sidarth Wakhlu MD

*Individuals who participate in this program will be able to:*

- *Select appropriate evaluation tools for diagnostic assessments.*
- *Describe treatment interventions for psychiatric disorders in the elderly.*
- *Compare and contrast treatment options in diverse practice settings.*
- *Explain the role of the geriatric psychiatrist in health care systems.*
- *Discuss practice-related federal policies.*

*(Ticketed Event)*

Friday 3/24/2017

Time: 7:30 AM-12:00 PM

### **Training Directors Workshop**

Room: Miro

Track: Educator/Clinician

#### **Session # W2**

Chair: Jason Schillerstrom MD

*(Ticketed Event)*

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Friday 3/24/2017

Time: 8:30 AM-12:30 PM

## Neuroscience Teaching Day: How Do We Develop New Treatments? Advances in Drug Discovery in Geriatric Psychiatry

Room: Metropolitan

Track: All

### Session # W3

Chair: Paul A. Newhouse MD

Faculty: Craig Lindsley, PhD

Carrie Jones, PhD

Paul A. Newhouse, MD

Jordan Karp, MD

*This research update symposium will provide an "under-the-hood" look at new drug development, from hypothesis generation based on improved understanding of the molecular basis of neuropsychiatric illness to medicinal chemistry approaches to synthesizing novel molecular entities. The symposium will then examine how promising molecules are explored in novel technological preclinical models of behavior to determine therapeutic potential. Presenters will examine early phase drug testing in humans, including new approaches to phase 1 studies and target engagement with an appreciation of challenges and risks. Finally, presenters will discuss new methods and approaches for later phase multicenter clinical trials and repurposing approaches. Illustrative examples of drug development will focus on treatment approaches to late life neuropsychiatric disorders including Alzheimer's disease and depression.*

Friday 3/24/2017

Time: 11:00 AM-12:00 PM

## AAGP Business Meeting

Room: Morocco

### Session # M2

*(Open to all AAGP members) Come to the business meeting to hear about the ways AAGP has been working for you and to give your input into AAGP's future direction. At the business meeting, President Dan Sewell, MD, and President-Elect Iqbal "Ike" Ahmed, MD, will update members on AAGP's activities, and Secretary/ Treasurer Brent P. Forester, MD, will provide a report of the organization's financial position.*

Friday 3/24/2017

Time: 1:30 PM-3:00 PM

## 2016 Highlighted Papers for the Practicing Geriatric Mental Health Clinical Provider

Room: Coral

Track: Clinical

### Session #100

Chair: Laurel Bessey MD

Faculty: Joanna Lim

Juan Young

Discussant: Lisa Boyle MD MPH

*This symposium will highlight ten studies published from the year 2016 relevant for the busy practicing geriatric psychiatrist or mental health provider.*

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Friday 3/24/2017

Time: 1:30 PM-3:00 PM

## **Ethical, Legal and Forensic Issues in Geriatric Psychiatry**

Room: Miro

Track: Clinical

### **Session #101**

Chair: Aarti Gupta MD

Faculty: Meera Balasubramaniam MD MPH

Discussant: Rajesh Tampi MD MS DFAPA

*The session will review the ethical, legal and forensic issues that clinicians may encounter in caring for older adults with psychiatric illness with the help of case discussion for each of the issues. Ethical issues will focus on informed consent, decisional capacity, capacity evaluation and testamentary capacity while legal issues will review conservatorship vs power of attorney, abuse and involuntary commitment. Finally, the last section of the presentation will discuss issues germane to aging offenders, competence to stand trial and treatment.*

Friday 3/24/2017

Time: 1:30 PM-3:00 PM

## **How to save the Grandma?**

Room: Monte Carlo

Track: none

### **Session #102**

Chair: Tatyana Shteinlukht MD PhD

Faculty: Jason Schillerstrom MD

Karen Reimers MD

Discussant: Mark Rapoport MD FRCPC

*This symposium is intended to increase audience's awareness of the decision making and driving capacity assessment in older adults. Those assessments are much needed in to protect older adults from personal and medical neglect, financial exploitation, risks associated with driving in cognitively impaired people. This symposium is sponsored by the AAGP Women's Interest Group.*

Friday 3/24/2017

Time: 1:30 PM-3:00 PM

## **Mind-Body Interventions for Late-Life Mental Health and Cognition**

Room: Morocco

Track: Research

### **Session # 103**

Chair: Soham Rej MD

Faculty: Akshya Vasudev MBBS MD MRCPsych

Gabriela Torres-Platas

Discussant: Helen Lavretsky MD

*Mind-body interventions, such as meditation, mindfulness, yoga, and tai-chi are becoming recognized as legitimate therapies in geriatric mental illness and cognitive disorders, as well as for promoting brain health. In this session, presenters will discuss new data examining how mind-body interventions can be helpful in treating and preventing a broad range of late-life disorders: anxiety, depression, suicidality, severe medical illness, and cognitive decline*

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Friday 3/24/2017

Time: 1:30 PM-3:00 PM

**Productive Aging and Creativity: The Lives and Art of Georgia O'Keefe, Pablo Picasso and Claude Monet**

Room: Metropolitan

Track: Educator/Clinician

## Session #104

Chair: Maria Llorente MD

Faculty: Marsden McGuire

Francisco Parra

*This session will review the principles of Productive Aging and the role of the Arts in empowering older adults to achieve productivity in spite of physical or cognitive limitations. The art and lives of three artists (O'Keefe, Picasso and Monet) who continued their creative work into older age will be discussed to illustrate the value of Art as one ages.*

Friday 3/24/2017

Time: 3:15 PM-4:45 PM

**Creative Resilience & Aging: Johnny Cash — The Man in Black Fades to Black**

Room: Metropolitan

Track: Educator/Clinician

## Session #105

Chair: Jeffrey Lyness MD

*Johnny Cash (1932-2003) was among the century's most-loved performers, spanning the musical genres of country, gospel, folk, blues, and rockabilly. This presentation will use the techniques of biography, illustrated by images, audio, and video, to describe Cash's professional and personal arc toward the artistic triumphs of his last decade of life.*

Friday 3/24/2017

Time: 3:15 PM-4:45 PM

**Advances in Pharmacotherapy of Late-Life Depression**

Room: Morocco

Track: Research

## Session #106

Chair: John Kasckow MD PhD

Faculty: Marie Anne Gebara MD

Benoit Mulsant MD

Discussant: Eric Lenze MD

*This symposium will cover advances in the pharmacotherapy of late-life depression. The topics will comprise presentations on: research examining sleep profiles in older individuals who are treatment resistant (Dr. Kasckow); which baseline depressive symptoms predict remission when receiving augmentation with aripiprazole (Dr. Gebara); and a systematic approach towards the treatment of late-life depression (Dr. Mulsant). Dr. Eric Lenze MD will serve as discussant.*

Friday 3/24/2017

Time: 3:15 PM-4:45 PM

**Aging and Post-Intensive Care Syndrome (PICS): How Can We Provide Integrated, Innovative Care for Older Adults Suffering from Delirium, Dementia, and Depression?**

Room: Monte Carlo

Track: All

## Session # 107

Chair: Sophia Wang MD

## AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Faculty: Sophia Wang MD  
Babar Khan MD  
Noll Campbell PharmD

*Due to the rapid improvements in ICU care, survivorship from critical illness is now the "defining challenge of critical care medicine." One major reason for this challenge is that ICU survivors may develop long-term cognitive, psychological, and physical impairments from their critical illness. These long-term impairments are known as post-intensive care syndrome (PICS). Not surprisingly, PICS is more likely to affect older adults, although it can also affect certain populations of younger adults. In this symposium, we will review PICS, with a particular focus on neuropsychiatric sequelae and current gaps in assessment and treatment in neuropsychiatric disorders in older ICU survivors. We will then present information and data about the Critical Care Recovery Center, one of the first two ICU survivor clinics in the US based at Indiana University that delivers services for ICU survivors using an innovative collaborative care model. Finally, we will also discuss psychotropic use in ICU survivors and the need to identify potentially inappropriate medications that are frequently continued in the post-ICU setting.*

Friday 3/24/2017

Time: 3:15 PM-4:45 PM

### **SHAKEN NOT STIRRED: Collaborative Evaluation and Management of Neuropsychiatric Symptoms in Older Adults with Parkinson Disease**

Room: Miro

Track: Clinical

#### **Session # 108**

Chair: Shilpa Srinivasan MD

Faculty: Rushiraj Laiwala MD  
Shilpa Chitnis  
Shilpa Srinivasan MD

*In this symposium, geriatric psychiatrists and a movement-disorders trained neurologist will present an evidence-based overview of psychosis and mood disorders, common psychiatric symptoms in older adults with Parkinson's disease. A clinical case-based approach and evidence-based literature review will highlight the collaborative role of neurologists and geriatric psychiatrists in the evaluation and management of neuropsychiatric symptoms in older individuals with Parkinson Disease.*

Friday 3/24/2017

Time: 3:15 PM-4:45 PM

### **What's Trending in Medical Education: Implications for Geriatric Psychiatry**

Room: Coral

Track: Educator/Clinician

#### **Session # 109**

Chair: Kirsten Wilkins MD

Faculty: Deborah Wagenaar DO MS DO MS  
William Brooks MD

*The landscape of undergraduate medical education is rapidly changing, with significant implications for medical student education in geriatric psychiatry. This symposium will provide an overview of medical school curriculum reform taking place at many institutions and emerging trends in undergraduate medical education. Presenters will describe the impact (i.e., opportunities and threats) of these educational trends on medical student education in geriatrics. Finally, presenters will share evidence-based strategies for successful integration of geriatric psychiatry education in an evolving undergraduate medical curriculum.*

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Friday 3/24/2017

Time: 5:00 PM-6:30 PM

**Opening Plenary with Dan Sewell, Rajesh Tampi MD MS DFAPA and Iqbal Ahmed MD**

Room: Chantilly Ballroom

**Session # 110**

Faculty: Rajesh R. Tampi, MD, MS, DFAPA

Dan Sewell, MD

Iqbal "Ike" Ahmed, MD

*Welcome by Rajesh R. Tampi, MD, MS, DFAPA, AAGP 2017 Annual Meeting Program Chair*

*Presentation of Awards by Dan Sewell, MD, AAGP President and Iqbal "Ike" Ahmed, MD, AAGP President-Elect*

*Presidential Plenary Address by Iqbal "Ike" Ahmed, MD, AAGP President-Elect*

Friday 3/24/2017

Time: 6:30 PM-8:00 PM

**Opening Reception**

Room: Chantilly Foyer

**Session # E1**

*Immediately following the Opening Plenary, all registrants are invited to an Opening Reception with light refreshments. (Separate tickets may be purchased for guests).*

Friday 3/24/2017

Time: 7:30 PM-8:30 PM

**Members-In-Training (MIT) Reception**

Room: Laliq

**Session # E2**

*All trainees are invited to attend this special networking reception, for a relaxed and low-key opportunity to connect with other trainees, as well as meet some of the geriatric psychiatry fellowship directors. This reception is for all trainees and for any training director who is an AAGP member.*

## **SATURDAY, MARCH 25**

Saturday 3/25/2017

Time: 7:30 AM-8:30 AM

**GMHF Scholars Program Breakfast**

Room: Batik

**Session # E3**

*Program participants only*

Saturday 3/25/2017

Time: 8:30 AM-11:30 AM

**GMHF Scholars Program**

Room: Batik

**Session # E4**

*This program is designed to increase interest in geriatric psychiatry among medical students and residents, inform about opportunities to learn more about clinical elective and research opportunities during medical school, and inform about opportunities available in psychiatry residency programs. The program also showcases the benefits of fellowship training in geriatric psychiatry and educates residents about the scope and practice of geriatric psychiatry. Advance registration was required for this event. Additional attendees cannot be added on site.*

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Saturday 3/25/2017

Time: 9:45 AM-11:15 AM

## **Age-Friendly Austin: Creating the Age-Friendly Action Plan**

Room: Steuben

Track: All

### **Session # 200**

Chair: Erica Garcia-Pittman MD

Faculty: Jessica Lemann MD

Teresa Sansone Ferguson

*This session will highlight the history of Age-Friendly Austin with a focus on the creation of the Age-Friendly Action Plan. We will discuss the AARP Network of Age-friendly Communities, an affiliate of the World Health Organization's Age-friendly Cities and Communities Program. Additionally we will review the 8 Domains of Livability and how they allow for successful aging.*

Saturday 3/25/2017

Time: 9:45 AM-11:15 AM

## **Research Award Session by Distinguish Scientist Awardee: Improving the outcomes of pharmacotherapy for late-life depression**

Room: Wyeth

Track: Research

### **Session # 201**

Chair:

Faculty: Benoit H. Mulsant

*Depression is the most prevalent treatable psychiatric disorder in late life. Recovery from depression can occur in almost all older patients and make a dramatic difference in their level of functioning and quality of life. The proportion of older Americans being treated with an antidepressant (14%) has doubled over the past two decades. However, most older depressed patients do not benefit from their treatment. This lecture will review the evidence supporting the efficacy of antidepressant and other psychotropic medications and their risks in the treatment of late-life depression. It will address some of the major issues that impede the pharmacologic treatment of depression in older patients. Based on the substantial knowledge accumulated during the last two decades, this lecture will present a practical approach to overcome these clinical problems and maximize the effectiveness of pharmacotherapy when treating a patient with late-life depression.*

Saturday 3/25/2017

Time: 9:45 AM-11:15 AM

## **"Maximizing Independence at Home" for people with dementia and their caregivers: developing, implementing, and disseminating best practices.**

Room: Monet

Track: All

### **Session # 202**

Faculty: Deirdre Johnston MB BCH

*This panel will review the development of Maximizing Independence (MIND) at Home, incorporating the DICE approach to managing behavioral symptoms, the use of telehealth to support and coach non-clinical care coordinators in the field, and protocolizing reproducible, disseminatable models of multidimensional, home-based, person-centered dementia care.*

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Saturday 3/25/2017

Time: 9:45 AM-11:15 AM

**Consultation Liaison Geriatric Psychiatry in an Integrated Healthcare Model: An AAGP and APM Synergy Symposium**

Room: Manchester

Track: none

## **Session # 203**

Chair: Aarti Gupta MD

Faculty: Rajesh Tampi MD MS DFAPA

Kirsten Wilkins MD

Discussant: Iqbal Ahmed MD & Robert Boland MD

*This symposium begins with an overview of data for comorbid medical and psychiatric disorders in older adults in acute care settings. Then we will enumerate the evidence for a consultation liaison geriatric psychiatric service in the care of these individuals. We will end the symposium with a discussion of the role of a geriatric psychiatry consultation liaison service in an integrated healthcare system.*

Saturday 3/25/2017

Time: 9:45 AM-11:15 AM

## **Case Presentation 1: Pharmacology**

Room: Coral

Track: All

## **Session # 204**

Speakers: Allan Anderson MD: Pharmacogenomic Psychotropic Case Study

Allan Anderson MD: Pharmacogenomic Psychotropic Case Study II

Andrea Iaboni MD Dphil: Clozapine for Treatment-Refractory, Severe Agitation in

Dementia: a Case-Series

Saturday 3/25/2017

Time: 9:45 AM-11:15 AM

## **Dementia at the End of Life**

Room: Miro

Track: Clinical

## **Session # 205**

Chair: Jonathan Stewart MD

Faculty: Inna Sheyner

Discussant: Susan Schultz MD

*There is little question that severe dementia is a terminal condition, yet a minority of patients with endstage dementia receive appropriate palliative or hospice care. This workshop will approach severe dementia as a terminal illness and will emphasize the role of the geriatric psychiatrist in the care of these patients.*

Saturday 3/25/2017

Time: 9:45 AM-11:15 AM

## **Advances in Late-Life Schizophrenia: A Focus on Functional and Physical Abilities**

Room: Morocco

Track: Research

## **Session # 206**

Chair: Tarek Rajji MD

Faculty: Anjana Muralidharan PhD

Heather Leutwyler

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Discussant: John Kasckow MD PhD

*This symposium will cover advances in research in late-life schizophrenia. The focus will be on functional and physical abilities of this population. Schizophrenia is a serious illness and one of the most expensive psychiatric disorders.*

Saturday 3/25/2017

Time: 9:45 AM-11:15 AM

## **Update on Geriatric Psychiatry Maintenance of Certification Program**

Room: Monte Carlo

Track: All

### **Session # 207**

Chair: Lisa Boyle MD MPH

Faculty: Jeffrey Lyness MD

*Maintenance of Certification is a program required for continued board certification in geriatric psychiatry by the American Board of Psychiatry and Neurology. This symposium will provide AAGP meeting attendees with an update from a Psychiatry Director of the ABPN about its Maintenance of Certification (MOC) program (including recent changes in response to revised requirements issued by the American Board of Medical Specialties), information about how the AAGP can help support its members to maintain subspecialty certification, and an opportunity for participants to discuss issues related to maintaining ABPN subspecialty certification. Jeffrey Lyness MD: This presentation will provide a review of the ABPN MOC Program requirements and inform symposium participants about recent updates and rationale for changes. Dr. Lyness currently serves as a Psychiatry Director of the ABPN. Lisa Boyle MD MPH: This presentation will provide an overview of AAGP's efforts to provide support to its members to maintain Geriatric Psychiatry certification. Dr. Boyle currently serves as AAGP's CME committee chair.*

Saturday 3/25/2017

Time: 9:45 AM-11:15 AM

## **Update on New Research and the Clinical Practice of ECT in the Elderly**

Room: Metropolitan

Track: All

### **Session # 208**

Chair: William McDonald MD

Faculty: Adriana Hermida MD  
Georgios Petrides MD  
Charles Kellner MD

*The session will include experts in the field describing new research in the practice of ECT in the elderly that is directly relevant to the clinical practice of ECT.*

Saturday 3/25/2017

Time: 11:30 AM-12:30 PM

## **Plenary II: Dementia, Ethics, and Health Policy with Tia Powell, MD**

Room: Chantilly Ballroom

Track: All

### **Session # 209**

Faculty: Tia Powell MD

*Current federal and state policies for dementia reveal an imbalance in efforts toward cure, and too little emphasis on caring for patients who currently have or will develop dementia. The speaker will briefly examine the historical development of these policies, and the consequences of them. Recent efforts to readjust policies toward a greater emphasis on supporting care for both patients and their caregivers will also be explored, as will positive future directions for dementia policy.*

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Saturday 3/25/2017

Time: 12:45 PM-2:45 AM

## **ISS Program**

Room: Chantilly Ballroom

Track: All

## **Session # 210**

TBD

Saturday 3/25/2017

Time: 12:45 PM-2:45 PM

## **GMHF Scholars Networking Luncheon**

Room: Batik

## **Session # E5**

*Following the Scholars Program morning meetings, program participants will attend a luncheon to meet individually with a geriatric psychiatrist mentor. Advance registration was required for this event. Additional attendees cannot be added on site.*

Saturday 3/25/2017

Time: 1:00 PM-3:00 PM

## **Research Committee Meeting**

Room: Fleur-de-lis A

## **Session # M3**

*The Research Committee shall work to promote high quality research to improve care for the elderly through support of research training programs and increased funding for biomedical and health services research. The committee shall also develop initiatives to integrate research findings into processes and programs to improve clinical care.*

Saturday 3/25/2017

Time: 3:00 PM-5:00 PM

## **Developing Your Clinician/Educator Career**

Room: Coral

Track: Educator/Clinician

## **Session # 211**

Chair: Dennis Popeo MD

Faculty: Brandon Yarns MD

Elizabeth Santos MD

Alessandra Scalmati MD PhD

*In this special 2 hour symposium, five successful clinician / educators will present advice on creating effective, successful lectures; making better use of technology in teaching; present skills on giving feedback, taking feedback, successful self-promotion and allow participants to practice those new skills; and encourage networking for support and scholarly collaboration.*

Saturday 3/25/2017

Time: 3:00 PM-4:30 PM

## **American Psychiatric Association (APA) National Mental Health Registry**

Room: Monet

Track: Educator/Clinician

## **Session # 212**

## AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Faculty: Saul Levin MD  
Eileen Carlson, RN JD  
Jan Fanning MS CAE

*The new MACRA law contains requirements for psychiatrists to report on the quality of their care or face financial penalties. The APA is committed to helping psychiatrists meet these growing quality reporting requirements of insurers as well as certifying boards. Towards these ends, the APA is developing a national mental health registry that will help participating psychiatrists: avoid payment penalties and potentially achieve bonuses for meeting insurers quality reporting requirements; reduce the administrative burden to psychiatrists of submitting reports on the quality of their care; meet practice improvement activity requirements required by certifying boards (e.g., ABPN's MOC Part IV); improve the quality of care and outcomes achieved by patients; and provide the field with a means to develop its own quality measures as well as conduct research on new diagnostics and therapeutics. This workshop will discuss the development of the APA registry and outline steps psychiatrists can take to participate in the APA National Mental Health Registry.*

Saturday 3/25/2017

Time: 3:00 PM-4:30 PM

### **Who will take care of me when I am old? Addressing the Geriatric Workforce Crisis**

Room: Steuben

Track: Educator/Clinician

#### **Session # 213**

Chair: Ellen Whyte MD

Faculty: Lalith K Solai MD

Maritza Buenaver MD

*This session will present novel programs aimed at educating non-geriatric psychiatrists in the basics of geriatric mental health care.*

Saturday 3/25/2017

Time: 3:00 PM-4:30 PM

### **Windows Into the Brain: Functional Networks Informing Treatment in Late-Life Depression**

Room: Morocco

Track: Research

#### **Session # 214**

Faculty: Warren Taylor MD

Sara Weisenbach PhD

Faith Gunning PhD

Olu Ajilore MD PhD

*There is a significant body of work associating late-life depression with a wide range of differences in brain morphology, white matter microstructure, and functional response to a range of stimuli. More recent work has focused on the intrinsic functional networks, geographically distinct brain regions that are functionally linked and work together to coordinate critical processes such as executive control, monitoring of internal and external stimuli, and memory function, amongst others.*

Saturday 3/25/2017

Time: 3:00 PM-4:30 PM

### **Neurology Update: Essential Tremor, Parkinson's Disease, and Stroke**

Room: Metropolitan

Track: All

#### **Session # 215**

Chair: Cindy Marshall MD

## AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Faculty: Veronica Santini  
Pravin Khemani MD  
Dion Graybeal MD

*This symposium will provide updates on essential tremor, Parkinson's disease and stroke. Dr. Santini will address the evaluation and treatment of essential tremor (ET). Resemblance to other tremors, associated gait and balance impairment, and lack of universally effective medications can make diagnosis and treatment of ET challenging. Dr. Khemani will discuss treatment of the motor symptoms of Parkinson's disease (PD). Knowledge of efficacy and side-effect profile of the various PD drugs guides selection of medications for the aging PD patient. Dr. Graybeal will review the warning signs of stroke and the patient characteristics for intravenous and intra-arterial therapies. Newly approved and emerging therapies for the hyperacute treatment of ischemic stroke will be discussed, as well as evidence based criteria for patient selection and favorable outcomes.*

Saturday 3/25/2017

Time: 3:00 PM-4:30 PM

### **How Does Cognitive Aging Affect Clinical Competence of Physicians? Current Status of Age-Based Mandatory Cognitive Testing of Physicians**

Room: Manchester

Track: Educator/Clinician

#### **Session # 216**

Faculty: Anothai Soonsawat  
Iqbal Ahmed MD  
Marcia Lammando MSN MHSA

Discussant: James Ellison MD MPH

*There is no disputing that age is a significant risk factor for cognitive decline. Physicians, though they may be partially protected by cognitive reserve, are vulnerable to age-related changes in cognition that impact on their capacity to process complex information and make the multifactorial decisions required in the practice of psychiatry and other areas of medicine. Is the public adequately protected from physicians affected by age-related cognitive impairment or neurocognitive disorders? Several countries have already enforced specific retirement ages for physicians or enacted mandatory age-based cognitive assessment programs. In many United States hospitals, age-based assessment is required of all staff members or at least for older physicians whose performance has attracted adverse attention. In this symposium, we will review the normative characteristics of cognitive aging, examine the effects of normal and pathological cognitive aging on physician performance, explore the controversies that mandatory testing has raised, and learn about model assessment programs already available to physicians and medical societies.*

Saturday 3/25/2017

Time: 3:00 PM-4:30 PM

### **Smart and Personalized Geriatric Psychiatry: How Sensors, Mobile Devices and Informatics May Change the Way we Practice**

Room: Monte Carlo

Track: All

#### **Session # 217**

Chair: Ipsit Vahia MD  
Faculty: Mark Rapoport MD FRCPC  
Ghizlane Moussaoui  
Karen Whiteman

*Over the past 5 years, there has been an explosion in the scope and availability of a variety of digital tools. Smartphones, tablets and wearable sensors are able to gather a broad range of data in real time on various aspects of behavior and function. Moreover, the extraordinary computing capabilities of these devices allow for real time analysis using*

## **AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)**

*sophisticated algorithm, and instant visualization. Leveraging the power of these technologies can provide clinicians and researchers with tools for behavior monitoring, that were not possible even 5 years ago, and can add an entirely new dimension to psychiatric care. This session will feature 3 talks that will present new data demonstrating how these tools can facilitate novel approaches to the assessment and care of older adults.*

Saturday 3/25/2017

Time: 3:00 PM-4:30 PM

### **PTSD for Non-VA Clinicians**

Room: Miro

Track: Clinical

#### **Session # 218**

Faculty: Marie DeWitt MD  
Sharon Gordon PsyD

*This session will include presentations by two clinicians (a geriatric psychiatrist and a geropsychologist) regarding the diagnosis, presentation, and treatment of PTSD in older adults. After information is presented, audience participation will be encouraged while discussing cases. Finally, time will be left for audience questions. [Sponsored by the AAGP VA Caucus]*

Saturday 3/25/2017

Time: 3:00 PM-4:00 PM

### **International Medical Graduate Caucus Meeting**

Room: Fleur-de-lis B

#### **Session # M4**

*This caucus provides a forum to discuss issues relevant to IMGs, including impact of being an IMG on career decisions, and roles and opportunities for IMG members within AAGP.*

Saturday 3/25/2017

Time: 3:00 PM-4:00 PM

### **Members in Training (MIT) Caucus Meeting**

Room: Cardinal A

#### **Session # M5**

*This forum is an opportunity for AAGP members-in-training and student members to discuss MIT participation within AAGP and issues related to training and career development.*

Saturday 3/25/2017

Time: 4:30 PM-6:00 PM

### **LGBT Caucus Meeting**

Room: Cardinal A

#### **Session # M6**

*This forum is an opportunity to discuss professional issues relevant to LGBT attendees and the roles members can take in the organization.*

## AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Saturday 3/25/2017

Time: 4:30 PM-6:00 PM

### **Clinical Practice Committee Meeting**

Room: Fleur-de-lis A

#### **Session # M7**

*The Clinical Practice Committee shall develop initiatives to support and promote the clinical practice of geriatric psychiatry and expand practice opportunities for clinicians. Specific issues that the clinical practice committee will address include reimbursement, developing programs to enhance clinical ability, development of practice guidelines/practice parameters, and practice management issues.*

Saturday 3/25/2017

Time: 4:30 PM-6:00 PM

### **CME Committee Meeting**

Room: Fleur-de-lis B

#### **Session # M8**

*The Continuing Medical Education Committee shall provide direction for the continuing professional development activities of AAGP; set and implement policy for CME review; monitor needs assessment data to plan continuing professional development activities; evaluate the effectiveness of the continuing professional development activities and the overall educational program; and review all activities containing professional development activities for CME designation. The committee also works to ensure that AAGP educational activities are consistent with the organizational mission, and to provide a focal point for the dissemination of information about geriatric psychiatry in order to enhance the ability of psychiatrists, primary care physicians and other health care professionals to recognize and address the special mental health needs of the geriatric population.*

Saturday 3/25/2017

Time: 4:30 PM-6:30 PM

### **Teaching and Training Committee Meeting**

Room: Wyeth

#### **Session # M9**

*The Teaching and Training Committee shall work to improve the mental healthcare of the elderly by developing educational resources and programs to increase the knowledge base and skills of medical students and trainees at all levels. The committee shall also develop initiatives to strengthen training requirements in geriatric psychiatry and increase the number of students exposed to geriatrics. Specific areas under the committee's jurisdiction include liaison and programs with ACGME, ABPN, publications, educational programs, and training/fellowship issues.*

Saturday 3/25/2017

Time: 4:30 PM-6:30 PM

### **Early Investigator Poster Session**

Room: Grand Ballroom

Track: All

#### **Session # 219**

*Poster rounds will take place from 4:30 PM-5:30 PM. Presenters will be available to discuss their work in a standard poster session from 5:30 PM-6:30 PM. Early Investigator Posters feature research from those in the earlier stages of their career - medical students, residents, research or clinical fellows, or junior faculty (less than two years). The poster session will again include poster rounds, in which senior researchers will meet with the new investigators and any interested conference attendees to review and discuss the posters. Poster rounds are intended to facilitate interaction between senior faculty, young researchers, and the AAGP membership in a relaxed, collegial atmosphere.*

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

## SUNDAY, MARCH 26

Sunday 3/26/2017

Time: 7:30 AM-9:30 AM

### **AJGP Editorial Board Meeting (Invitation Only)**

Room: Travertine

#### **Session # M10**

*Closed meeting-Editorial Board only*

Sunday 3/26/2017

Time: 7:30 AM-9:30 AM

### **ISS Program**

Room: Chantilly Ballroom

Track: All

#### **Session # 300**

*TBD*

Sunday 3/26/2017

Time: 7:30 AM-9:00 AM

### **AAGP-PAC Board Breakfast (Invitation Only)**

Room: Fleur-de-lis B

#### **Session # M11**

*Closed meeting—PAC Board members only*

Sunday 3/26/2017

Time: 7:30 AM-8:30 AM

### **Past Presidents Breakfast (Invitation Only)**

Room: Fleur-de-lis A

#### **Session # M12**

*Closed meeting-AAGP Past Presidents Only*

Sunday 3/26/2017

Time: 8:45 AM-11:15 AM

### **Developing Your Research Career**

Room: Wyeth

#### **Session # 301**

Faculty: Amy Byers PhD MPH

Julie Wetherell PhD

*This meeting provides information on opportunities for new researchers in geriatric psychiatry and how to get started, obtain research training and support, and persist in the research field.*

Sunday 3/26/2017

Time: 9:45 AM-11:15 AM

### **Assessing the Older Adult with Bipolar Disorder: Review of the State of the Field and Recommendations for the Clinician and Researcher**

Room: Monte Carlo

Track: All

#### **Session # 302**

Chair: Lisa Eyler PhD

## AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Faculty: Soham Rej MD  
Martha Sajatovic MD  
Brent Forester MD

*The session will present results from a collaborative project sponsored by the International Society for Bipolar Disorders' Older Adult Bipolar Disorder (OABD) Task Force which reviewed the literature systematically to determine which types of measures were being used to assess OABD in published studies. Clinicians and researchers will benefit from understanding the state of the field for OABD assessment, learning about strengths and weaknesses of various instruments, and hearing expert opinions on the future of clinical, cognitive, biomarker, and brain imaging measures to understand the needs of older bipolar patients.*

Sunday 3/26/2017

Time: 9:45 AM-11:15 AM

### **Case Presentation 2: Dementia Diagnosis & Psychiatric Diagnosis**

Room: Manchester

Track: All

#### **Session # 303**

Chair:

Speakers: Ebony Dix MD: An Atypical Dementia Presentation, But is this also a Case of Elder Abuse?

Kasia Rothenberg MD PhD: Cerebral Amyloid Related Inflammatory Process

Ali Najafian Jazi MD MS: A Case of Obsessive Compulsive Disorder (OCD) with Fear of Contamination of Percutaneous Endoscopic Gastrostomy (PEG) Tube

Sunday 3/26/2017

Time: 9:45 AM-11:15 AM

### **Cognitive Impairment in Late Life Depression**

Room: Morocco

Track: Research

#### **Session # 304**

Chair: Craig Nelson MD

Faculty: Scott Mackin PhD

Duygu Tosun-Turget PhD

*Late life depression is one of the most common mental health disorders that afflicts older patients. In this session we will compare depressed older patients with normal controls and examine preliminary evidence of change in these parameters over time. Patients in this sample also received comprehensive neuropsychological assessments as well as resting state functional MRI which will be evaluated in relation to other neuroimaging findings. This data will allow us to investigate dysfunction in key neural networks of interest.*

Sunday 3/26/2017

Time: 9:45 AM-11:15 AM

### **Driving and Dementia - An Introduction, Educational Resources, and International Perspectives**

Room: Metropolitan

Track: Educator/Clinician

#### **Session # 305**

Chair: Ali Asghar Ali MD

Faculty: Geri Adler

Mark Rapoport MD FRCPC

*This workshop will address assessment of, and interventions for, driving in people with dementia. Participants will be*

## AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

*presented a survey of online teaching tools for educators and family members. Presenters will review their development of an online educational training module and accompanying video. The workshop will conclude with the review of the creation of international guidelines to advise providers about approaches to the clinical management of driving and dementia.*

Sunday 3/26/2017

Time: 9:45 AM-11:15 AM

### **HIV and AIDS in the Aging Population**

Room: Miro

Track: Clinical

#### **Session # 306**

Chair: Marie DeWitt MD

Faculty: Ann Usitalo PhD  
Stephanie Sims MD

*Older adults with HIV/AIDS have become more common. This presentation will assist mental health professionals who work with older adults in understanding and managing the unique aspects of mental health and neurocognitive comorbidities associated with HIV/AIDS. Ample time will be allotted for questions and discussion from participants. [Sponsored by the AAGP Clinical Practice Committee]*

Sunday 3/26/2017

Time: 9:45 AM-11:15 AM

### **Integrated Care: Private and VA models**

Room: Monet

Track: Educator/Clinician

#### **Session # 307**

Chair: Paul Kirwin MD

Faculty: Brent Forester MD  
Stephen Bartels MD MS

*Brent Forester MD, Steve Bartels, and Paul Kirwin MD will present sessions on both private (Brent/Steve) and VA (Paul) models of Integrated Care*

Sunday 3/26/2017

Time: 9:45 AM-11:15 AM

### **Psychotropic Drugs and Falls in Older Adults: an Update for the Geriatric Psychiatrist**

Room: Coral

Track: Clinical

#### **Session # 308**

Chair:

Faculty: Dallas Seitz MD FRCPC  
Andrea Iaboni MD DPhil  
Julia Kirkham MD MSc

Discussant: Eric Lenze MD

*Falls prevention is an important quality of care issue in geriatric psychiatry. This session reviews the issue of psychotropic-related falls, examining the observational and experimental evidence and the implications for psychiatric care of the elderly.*

# AAGP 2017 Annual Meeting Schedule **(SUBJECT TO CHANGE)**

Sunday 3/26/2017

Time: 10:30 AM-11:30 AM

## **Ethnic and Minority Caucus Meeting**

Room: Fleur-de-lis A

### **Session # M13**

*This group offers an opportunity for discussion of professional issues relevant to minority professionals in the late-life mental health field and the roles members can take in the organization.*

Sunday 3/26/2017

Time: 10:30 AM-11:30 AM

## **Retirement Age Caucus Meeting**

Room: Fleur-de-lis B

### **Session # M14**

*This forum is an opportunity for members approaching or of retirement age to discuss issues related to retirement and the roles retiring members can take in the AAGP*

Sunday 3/26/2017

Time: 10:30 AM-11:30 AM

## **Public Policy Caucus Meeting**

Room: Travertine

### **Session # M15**

*The Public Policy Caucus discusses legislative and policy issues related to health care delivery, research and training, including Medicare reimbursement, nursing home reform, NIH appropriations, Graduate Medical Education funding and parity for mental health care services.*

Sunday 3/26/2017

Time: 11:30 AM-12:30 PM

## **Plenary III: Collaborative Care: Opportunities for Psychiatrists Caring for Depressed Older Adults**

Room: Chantilly Ballroom

Track: All

### **Session # 309**

Faculty: Jürgen Unützer MD MPH MA

Sunday 3/26/2017

Time: 12:30 PM-1:30 PM

## **Discussion Round tables**

Room: Chantilly Ballroom West

### **Session # E6**

Sunday 3/26/2017

Time: 12:30 PM-1:30 PM

## **Exhibit Hall Lunch**

Room: Grand Ballroom

### **Session # E7**

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Sunday 3/26/2017

Time: 1:00 PM-2:30 PM

## **Nominations Committee Meeting (Invitation Only)**

Room: Fleur-de-lis A

### **Session # M16**

*The Nominations Committee shall serve to develop ways in which the organization will run its annual election process for officer and board member positions. The committee will also be responsible for the screening of all candidates prior to them appearing on the ballot. Specific issues that the nominations committee will address include the call for nominations, campaign process, and overseeing the election. (Closed Meeting)*

Sunday 3/26/2017

Time: 1:30 PM-5:00 PM

## **K-Awardee Program Meeting**

Room: Steuben

### **Session # M17**

*A program for NIH-funded researchers with a K grant.*

Sunday 3/26/2017

Time: 1:30 PM-3:00 PM

## **Revisiting the 2012 IOM report: A renewed call for action**

Room: Monet

Track: Educator/Clinician

### **Session # 311**

Chair: Susan Lehmann MD

Faculty: Dennis Popeo MD

Mary Blazek MD MEHP

*The Institute of Medicine (IOM) 2012 Report urgently called for the development of new national curricula and core competencies in geriatric mental health for all healthcare clinicians who care for older adults. Yet, 5 years later, national efforts to respond to these recommendations are lackluster. This symposium will describe the response on a national level to the 2012 IOM's call to action regarding geriatric mental health training and will explore reasons why national curricula have not yet been developed. Presenters will share the efforts of a workgroup of the AAGP Teaching & Training Committee to develop a needs assessment and learning objectives in geriatrics mental health for medical students. Finally, presenters will describe a roadmap for activism and educational change to address this critical gap.*

Sunday 3/26/2017

Time: 1:30 PM-6:30 PM

## **Applying the Integrated Care Approach: Skills for the Consulting Psychiatrist**

Room: Chantilly Ballroom

Track: Educator/Clinician

### **Session # 312**

Chair: Joel Streim MD

*In 2015, the American Psychiatric Association (APA) received a grant from the Centers for Medicare and Medicaid (CMS) to train 3,500 psychiatrists in the clinical and leadership skills needed to support primary care practices that are implementing integrated behavioral health programs. This half-day workshop will be led by one of six "master trainers" prepared by AIMS (Advancing Innovative Mental Health Solutions) Center at the University of Washington.*

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Sunday 3/26/2017

Time: 1:30 PM-3:00 PM

**Diversity: Opportunities, Challenges and Solutions.**

Room: Monte Carlo

Track: All

## **Session # 313**

Chair: Tatyana Shteinlukht MD PhD

Faculty: Iqbal Ahmed MD

Rajesh Tampi MD MS DFAPA

Discussant: Ali Abbas Asghar-Ali

*This symposium is intended to increase the audience's awareness of the specific needs for the mental health services of a rapidly growing diverse US aging population. The symposium will address the role of International Medical Graduates (IMGs) who constitute almost half of the geriatric psychiatry workforce and are well represented in the AAGP and other professional organizations. This symposium is sponsored by the AAGP Diversity Caucus.*

Sunday 3/26/2017

Time: 1:30 PM-3:00 PM

**Gay and Gray VII: A Multidisciplinary Approach to Transgender Aging**

Room: Coral

Track: Clinical

## **Session # 314**

Faculty: Brandon Yarns MD

Janet Abrams MSW

Kevin Johnson MD

Discussant: Daniel Sewell MD

*Every year, the AAGP "Gay and Gray" presentation focuses on a topic that pertains to our aging LGBT population. This year we will focus on our aging transgender and gender non-conforming communities as they often require well-coordinated and culturally-sensitive health care from practitioners of numerous fields including psychiatry, endocrinology, surgery, primary care, social work, and nursing. This session will review the most recent literature that pertains to these communities, discuss appropriate interview strategies, and suggest best clinical practices.*

Sunday 3/26/2017

Time: 1:30 PM-3:00 PM

**GMHF Honors Alumni Scholars Session**

Room: Miro

Track: Research

## **Session # 315**

Faculty: Matthew Conlon MD

Rebecca Radue MD

Sarah A. Kleinfeld MD

*Come to this special session to hear presentations from four former Honors Scholars, who will each provide a presentation on the scholarly project they completed as part of the Scholars Program.*

Sunday 3/26/2017

Time: 1:30 PM-3:00 PM

**Late-Life Depression and Frailty: Is there a Common Vulnerability, and how does the Presence of Frailty Contribute to Clinical Outcomes of Geriatric Depression?**

Room: Morocco

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Track: Research

## Session # 316

Chair: Guy Potter PhD  
Faculty: Briana Mezuk PhD  
Patrick Brown PhD

Discussant: David Steffens MD

*This session will highlight new research on late-life depression (LLD) and frailty across three important themes: 1) conceptualization and measurement, 2) treatment response to antidepressant medication, and 3) longitudinal cognitive and functional outcomes. We will present ideas for a research agenda that incorporates LLD and frailty into an integrated model of geriatric mental health care.*

Sunday 3/26/2017

Time: 1:30 PM-3:00 PM

## The Art and Science of Creative Aging

Room: Manchester

Track: All

## Session # 317

Faculty: Marc Agronin MD  
Wendy Miller PhD

*This symposium will fully explicate Cohen's concept of creative aging, with an examination of key concepts including the role of the creative arts in both normative and pathological aging.*

Sunday 3/26/2017

Time: 1:30 PM-2:30 PM

## VA Caucus Meeting

Room: Travertine

## Session # M18

*This forum is an opportunity for those who work in the VA or are interested in the VA to discuss issues related to mental health care and older veterans.*

Sunday 3/26/2017

Time: 1:30 PM-2:30 PM

## Women's Interest Group Meeting

Room: Fleur-de-lis B

## Session # M19

*This forum is an opportunity for discussion of professional issues relevant to women professionals in the late-life mental health field and the roles women can take in the AAGP.*

Sunday 3/26/2017

Time: 3:00 PM-4:00 PM

## APRN Caucus Meeting

Room: Fleur-de-lis B

## Session # M20

*All advanced practice nurses who attend the AAGP meeting are invited to meet to discuss their participation with AAGP and their role in the late-life mental health care system.*

## AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Sunday 3/26/2017

Time: 3:00 PM-4:30 PM

### **Diversity Caucus Meeting**

Room: Fleur-de-lis A

#### **Session # M21**

*The Diversity Caucus strives to help the organization address the needs of a diverse membership and will also consider ways to enhance AAGP members' awareness of the patient population's richness of cultures, ethnicities, and sexualities, and how those differences impact patient/physician interaction.*

Sunday 3/26/2017

Time: 3:00 PM-4:30 PM

### **Public Policy and Geriatric Mental Health**

Room: Wyeth

Track: All

#### **Session # 318**

Chair: Alex Threlfall MD

Faculty: Ilse Wiechers MD

Discussant: Gary Epstein-Lubow MD

*This workshop, sponsored by the Public Policy Caucus, will explore aging and mental health policy issues and help prepare participants to engage in effective advocacy for our patients and the field of geriatric psychiatry.*

Sunday 3/26/2017

Time: 3:15 PM-4:45 PM

### **Coming Together to Fight Delirium: How to Deliver Team-Based, Interdisciplinary Care to Prevent, Detect, and Manage Delirium and Its Long-Term Sequelae**

Room: Miro

Track: All

#### **Session # 319**

Chair: Sophia Wang MD

Faculty: Jeffrey Browndyke PhD

Discussant: Malaz Boustani MD

Marie DeWitt MD

*Delirium has been traditionally defined as an acute onset of fluctuating cognitive status, usually in the context of precipitating medical or surgical events. Recent data suggest, however, that delirium may be better conceptualized as a chronic disorder, with risk factors and a wide range of cognitive outcomes. One major challenge to delivering clinical care to prevent, detect, and manage delirium is building team-based care models across various healthcare settings. In this symposium, we will review risk factors for delirium, in-hospital assessment tools and clinical approaches for the detection of delirium, and the long-term consequences of delirium. We will also discuss various innovative, team-based models of care for the prevention, detection, and management of delirium and its sequelae, including Perioperative Optimization of Senior Health (POSH), Hospital Elder Life Program (HELP) and Critical Care Recovery Center (CCRC) model systems. Finally, we will have an audience-driven discussion about the potential challenges which geriatric mental health professionals may face as they try to educate medical and surgical professionals in various disciplines about delirium, and propose to implement similar clinic setups to target delirium prevention and detection in their own practice settings.*

Sunday 3/26/2017

Time: 3:15 PM-4:45 PM

### **The role of International Medical Graduates in the treatment of late life psychiatric patients**

Room: Manchester

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Track: Clinical

## Session # 320

Chair: Oliver Glass MD

Faculty: Amita Patel MD

Rajesh Tampi MD MS DFAPA

*International medical graduates (IMGs) have traditionally played an integral part in the psychiatric treatment of patients in late life. In this symposium we will present data from the last five years showing how many residency slots are being filled by US medical graduates versus IMGs. We will show that the general trend for IMGs filling psychiatry residency positions is decreasing, while positions filled by US seniors are increasing. This can be surprising as the actual amount of psychiatry residency positions offered and number of actual psychiatry residency programs available is also increasing. We will present the top five states most likely to match a non-US citizen IMG for 2016. Additionally, we will outline some common pre-requisites psychiatry residency program's request prior to considering an IMG applicant.*

Sunday 3/26/2017

Time: 3:15 PM-4:45 PM

## **A Collaborative Approach to Address Mental Health Needs of Patients in Subacute Care in Skilled Nursing Facilities (SNFs)**

Room: Monet

Track: Clinical

## Session # 321

Chair:

Faculty: Isaura Menzies MD, MPH

*We will review an existing collaborative approach to mental health care for post-acute patients in a SNF. This patient population is characterized by medical complexity which includes acute and chronic multi-morbidity in physical, functional, cognitive and psychological health. Timely and appropriate care for this vulnerable group positively impacts their rehabilitation potential and successful return to the community. The model will be discussed within the current climate of integrated care, payment reform and policy initiatives.*

Sunday 3/26/2017

Time: 3:15 PM-4:45 PM

## **A complex clinical intersection: Palliative Care in patients with Dementia**

Room: Metropolitan

Track: Clinical

## Session # 322

Chair:

Faculty: Ellen Lee MD

Jeremy Hirst

Steven Huege

*After a brief introduction of the subject, we will present research findings and a clinical case. Then we will discuss communication guidelines, ethical tools and clinical management for this population. Then we will lead a discussion of these topics.*

Sunday 3/26/2017

Time: 3:15 PM-4:45 PM

## **Bringing the Resources of the Alzheimer's Association to the Clinic: A New Referral Model**

Room: Coral

Track: Clinical

## Session # 323

## AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Chair: Cindy Marshall MD  
Faculty: Cindy Marshall MD  
Linda Jersin  
Lauren Seemeyer MPH

*In 2014, an Alzheimer's Association Care and Support Specialist was integrated into the Baylor AT&T Memory Center, providing on-site services to patients and their caregivers. This was accomplished through collaboration between Baylor University Medical Center at Dallas, the Greater Dallas Chapter of the Alzheimer's Association and grant funding from AT&T. The role of the specialist will be discussed, providing specifics about the education and support provided to patients and their caregivers. This program will examine both clinician and patient/caregiver utilization of this resource. The Alzheimer's Association is partnering with hospitals, medical clinics and healthcare professionals throughout the United States implementing new and innovative models to help meet the needs of the expanding patient population diagnosed with Alzheimer's disease and other dementias. Additional innovative program models will be described as well.*

Sunday 3/26/2017

Time: 3:15 PM-4:45 PM

### **Inappropriate Sexual Behaviors in Dementia: A Review**

Room: Monte Carlo

Track: Clinical

#### **Session # 324**

Chair: Kirsten Wilkins MD

Faculty: Silpa Balachandran MD

Pallavi Joshi MA

Discussant: Rajesh Tampi MD MS DFAPA

*This symposium will begin with a discussion of the epidemiology, neurobiology and the differential diagnosis for ISBD. We will then provide an overview of the evidence based assessment and management of these behaviors. We will end the symposium by describing the effectiveness of multidisciplinary teams in the continuum of care for the management of ISBD.*

Sunday 3/26/2017

Time: 3:15 PM-4:45 PM

### **Senior Investigator Workshop**

Room: Morocco

Track: Research

#### **Session # 325**

Faculty: Jovier Evans PhD

Discussant: George Niederehe

Molly Wagster

*The Research Committee will organize this workshop in collaboration with program officers from the NIMH and NIA, who will serve as presenters (Jovier Evans, George Niederehe, and Molly Wagster are invited). All independent researchers and interested research trainees are invited to participate.*

Sunday 3/26/2017

Time: 4:45 PM-6:45 PM

### **New Research & Late Breaking Posters and Exhibit Hall Reception**

Room: Grand Ballroom

Track: All

#### **Session # E8**

# AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Sunday 3/26/2017

Time: 7:00 PM-8:30 PM

**GMHF Donor Reception (Invitation Only)**

Room: Verandah

**Session # E9**

## **MONDAY, MARCH 27**

Monday 3/27/2017

Time: 8:30 AM-10:00 AM

**Alzheimer's and Emerging Technologies**

Room: Manchester

Track: All

**Session # 400**

Chair: Rajesh Tampi MD MS DFAPA

Faculty: Smita Varshney MD

*This session will cover emerging technologies for Alzheimer's and other dementias. One of the papers we propose will focus on very first social media for Alzheimer's.*

Monday 3/27/2017

Time: 8:30 AM-10:00 AM

**THINK DELIRIUM: an Inter-professional Automated Assessment, Intervention, and Educational Program**

Room: Metropolitan

Track: Educator/Clinician

**Session # 401**

Chair:

Faculty: Uma Suryadevara MD

Stephen Welch MD

Bruce Bassi MD MS

Colleen Campbell DN

*With the increasing aging population in the United States, there is a strong need to address older patient care outcomes. Older patient population have multiple complex medical conditions, neurocognitive disorders, mental illnesses and behavioral comorbidities. Hospitalization places them at risk for developing typical geriatric syndromes such as functional decline, pressure ulcers, fecal and urinary incontinence, falls along with delirium. In hospitalized patients delirium is a common and serious problem. It is often associated with undesirable consequences including increased mortality and increased morbidity. It is also associated with a prolonged hospitalization, and increased nursing demands, as well as a need for both the use of physical and pharmacological restraints. Second presenter will describe the common reasons why delirium is misdiagnosed and how a multidisciplinary team might help.*

Monday 3/27/2017

Time: 8:30 AM-10:00 AM

**Alcohol, Cannabis, Opiates, Cocaine Use and the Aging Brain**

Room: Monet

Track: All

**Session # 402**

Chair: Marie DeWitt MD

Faculty: Daryl Shorter MD

Marie DeWitt MD

## AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

*This session will include an introduction to the use of habit forming substances in older adults and will be followed by presentations by two addiction psychiatrists who will discuss the effects of these substances on the aging brain as well as management of substance misuse in the older adult population. [Sponsored by the AAGP VA Caucus]*

Monday 3/27/2017

Time: 8:30 AM-10:00 AM

### **Pharmacotherapy of Late-Life Mental Disorders: Is There Anything New Under the Sun?**

Room: Miro

Track: Clinical

#### **Session # 403**

Chair: Benoit Mulsant MD

Faculty: Martha Sajatovic MD

Eric Lenze MD

*This symposium will review new evidence on the use of psychotropic drugs for the treatment of late-life mental disorders based on their mode of action and discuss how this evidence can be applied in clinical practice to improve treatment outcomes*

Monday 3/27/2017

Time: 8:30 AM-10:00 AM

### **The WeCareAdvisor™: A Web-based tool to help family caregivers manage the behavioral and psychological symptoms of dementia**

Room: Monte Carlo

Track: All

#### **Session # 404**

Chair:

Faculty: Helen Kales MD

Laura Gitlin MA PhD

Constantine Lyketsos MD

Discussant: Mark Kunik MD

*This session will describe the development, testing and future plans for a innovative web-based tool (the WeCareAdvisor™) to assist family caregivers in the assessment and management of behavioral and psychological symptoms of dementia (BPSD).*

Monday 3/27/2017

Time: 8:30 AM-10:00 AM

### **Clinical Research Informatics with SOLOMON and BrainWatch for Imaging the Neurodegenerative Disorders**

Room: Morocco

Track: All

#### **Session # 405**

Faculty: Carl Taswell MD PhD

*This presentation will provide an introduction to and review of PET brain imaging and informatics for the neurodegenerative disorders. Current status of brain imaging for the amyloidopathies, tauopathies and synucleinopathies will be reviewed. Imaging informatics, including the use of SOLOMON and BrainWatch, will be reviewed as it pertains to clinical research for the dementias. SOLOMON has been introduced previously as an ontology for the sensory-onset language-onset and motor-onset dementias. BrainWatch has been introduced previously as a web application and resource registry relevant to brain imaging. An update will be provided on the current status of the Brain Health Alliance imaging informatics system from a clinician-scientist's perspective by the presenter who is both ABPN*

## AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

*certified in psychiatry & neurology, ABNM certified in nuclear medicine, and actively engaged in research associated with brain imaging clinical trials.*

Monday 3/27/2017

Time: 9:00 AM-11:00 AM

### **Annual Meeting Program Committee Meeting**

Room: Coral

#### **Session # M22**

*The Program Committee is responsible for developing the educational content of the annual meeting with input from AAGP committees. The Program committee shall strive to develop a balanced program that meets the educational needs of clinicians, academicians and researchers.*

Monday 3/27/2017

Time: 10:15 AM-11:45 AM

### **To Fast Track or Not to Fast Track: The Future of Geriatric Psychiatry Training During Residency**

Room: Morocco

Track: Educator/Clinician

#### **Session # 406**

Faculty: Jordan Karp MD

*Dr. Karp, director of the geriatric psychiatry fellowship at the University of Pittsburgh, will introduce the topics and describe the agenda for the workshop. He will provide an overview of aging demographics and the current and projected prevalence of mental health conditions in older adults. Dr. Karp will also describe the results of the IOM report on the aging workforce and estimated shortfalls in specialty trained geriatric psychiatrists. Dr. Vahia, Medical Director for Geriatric Psychiatry Outpatient Programs at McLean Hospital, will present the RRC requirements for geriatric psychiatry training during residency. He will present innovative programming and clinical initiatives from UCSD, McLean Hospital, and University of Pittsburgh that meet the RRC requirements. Dr. Sewell, the current President of the American Association for Geriatric Psychiatry, will present the pros of offering a "fast track" option for PGY4 residents who want to pursue geriatric (and other sub-specialty training). Dr. Iglewicz, a geriatric psychiatrist and Associate Director for Residency training at UCSD, will describe potential risks to general residency programs and even geriatric psychiatry fellowships posed by fast tracking PGY4s into fellowship. She will also present alternatives for residency training opportunities that will help meet the public health need for more psychiatrists with high levels of proficiency and interest in providing quality psychiatric care to an aging population.*

Monday 3/27/2017

Time: 10:15 AM-11:45 AM

### **Forensics in Geriatric Psychiatry Fellowship: Evolution and Value**

Room: Manchester

Track: Educator/Clinician

#### **Session # 407**

Chair: Stephen Read MD

Faculty: Aaron Kaufman MD

Taya Varteresian DO MS

Aviva Bobb

*The symposium will discuss the experience of the Geriatric Psychiatry fellowship at the University of California Los Angeles (UCLA) in the development of a curriculum for teaching fellows the skills pertinent to a geriatric psychiatrist in regards to elder law.*

## AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Monday 3/27/2017

Time: 10:15 AM-11:45 AM

### **One Patient, One Clinic: Integrated Primary Care for the Geropsychiatric Patient.**

Room: Miro

Track: Clinical

#### **Session # 408**

Chair: Eve Byrd MSN MPH Doctoral Candidate

Faculty: Melodee Harris PhD

Carolyn Clevenger RN

*Introduction In 2012, the Institute of Medicine addressed the urgent need for a competent geropsychiatric workforce in The Mental Health and Substance Use Workforce for Older Adults: In Whose Hands? (IOM, 2012). The growing geriatric population needs geropsychiatric professionals to be committed the teaching of the interprofessional practice competencies (Harris, M., Mayo, A., Balas, M.C., Aaron, C.S., & Buron, B., 2013). Simultaneously, novel interprofessional models of care aimed at optimizing health system performance by improving the patient experience, improving the health of populations and reducing per capita costs are needed (IHI, 2016). This session will provide an overview of interprofessional practice competencies, integration of geropsychiatry into primary care and a practice model where interprofessional practice competencies have been applied.*

Monday 3/27/2017

Time: 10:15:00 AM-11:45 AM

### **Recent Advances In Prevention, Diagnosis and Management Of Dementia And The Associated Neuropsychiatric Symptoms.**

Room: Monet

Track: Research

#### **Session # 409**

Chair: Sanjeev Kumar MBBS

Faculty: Dr. Amer Burhan

Zahinoor Ismail MD

Discussant: Tarek Rajji MD

*Dementia and associated neuropsychiatric symptoms pose significant challenges in terms of prevention, diagnosis and treatment. In this symposium we will discuss the 1) the role of later life neuropsychiatric symptoms as an at risk state for cognitive decline and dementia, 2) Design of a large randomized controlled trial to study the efficacy of a preventive interventions for dementia in high risk groups, 3) Underlying neurophysiological mechanisms and novel treatment targets in patients with AD using Transcranial magnetic stimulation and quantitative electroencephalography and 4) An evidence-based approach for assessment and management of neuropsychiatric symptoms of dementia to optimize treatment outcomes*

Monday 3/27/2017

Time: 12:00 PM-1:30 PM

### **Advances and Barriers for Clinical of Neuroimaging in Late-Life Mood and Anxiety Disorders**

Room: Metropolitan

Track: Research

#### **Session # 410**

Chair: Howard Aizenstein MD PhD

Faculty: Carmen Andreescu MD

Olu Ajilore MD PhD

Warren Taylor MD

*Depression in older adults is frequently disabling and often requires more prolonged treatment trials than in younger*

## AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

adults. Currently, there is little neurobiological data to guide changing or augmenting antidepressant medications. While antidepressant clinical response may take up to 8 weeks, recent studies suggest that neurophysiologic signals, as measured with fMRI, precede and predict clinical response. In this presentation, we review results from a recently completed multi-modal MRI study of treatment response in LLD (n=60). We show the prediction of treatment response using perfusion fMRI, resting-state fMRI, and task-based fMRI. The presentation will place the new results in context of the literature on functional imaging of depression treatment. The accumulating evidence that functional imaging predicts treatment response supports the use of fMRI to complement traditional clinical measures in the assessment and management of LLD. We review the major challenges and opportunities in integrating fMRI into the management of LLD.

Monday 3/27/2017

Time: 12:00 PM-1:30 PM

### Case Presentation 3: Dementia Treatment

Room: Monet

Track: All

#### Session # 411

Chair:

Speakers: Ali Najafian Jazi MD: Treatment of Hyper-sexuality in an Elderly Patient with Frontotemporal Dementia in Long-Term Care Setting  
Tatyana Zharkova MD: Can Antipsychotics Be Used in Elderly Patients with Major Neurocognitive Disorder with Behavioral Disturbance and Stroke?  
Smita Varshney MD: Yes, I Want More Videos Managing Agitation in a PD Dementia Using a Social Media AlzhaTV

Monday 3/27/2017

Time: 12:00 PM-1:30 PM

### It takes a village: The importance of interdisciplinary care in drug induced parkinsonism

Room: Monte Carlo

Track: Clinical

#### Session # 412

Faculty: Ana Turner MD

We propose a 90minute workshop focused on a complicated case of severe drug-induced parkinsonism that highlights the complex challenges inherent in modern medicine and the importance of interdisciplinary hospital care. The first twenty minutes we will present the psychiatric history and differential diagnosis of a patient with of altered consciousness and manic symptoms. A twenty minute overview of the differential of movement abnormalities (including EPS, TD, NMS, and catatonia), and the pharmacology of parkinsonism will follow. Next, we will spend twenty minutes describing our patient's hospital course and the interventions made by a multi-disciplinary approach. Finally, utilizing a panel discussion with representatives from psychiatry and neurology, we will spend thirty minutes with active audience participation to discuss the importance of non-pharmacologic management of delirium and movement disorders focusing on the strategies implemented to prevent future occurrences in a hospital setting. Throughout the entire presentation, technology such as Poll Anywhere will be employed to engage the audience in an active part of the discussion.

Monday 3/27/2017

Time: 12:00 PM-1:30 PM

### Oral Presentation: Affective Disorders

Room: Manchester

Track: All

#### Session # 413

Faculty: Ryan Rajaram MD & Kasia Rothenberg MD PhD: The Impact of Obsessive Compulsive

## AAGP 2017 Annual Meeting Schedule (SUBJECT TO CHANGE)

Disorder on Neurocognitive Function in Later Life

Breno Diniz MD PhD: Enhanced Molecular Aging in Late-Life Depression

Ingmar Skoog MD PhD: Late-Life Depression in a Life-Course Perspective

*This oral presentation session will feature three presentations on the topic of Affective Disorders.*

Monday 3/27/2017

Time: 12:00 PM-1:30 PM

### **Palliative psychiatry experiences in residency training**

Room: Morocco

Track: Educator/Clinician

#### **Session # 414**

Faculty: Andrew Dentino MD

*This will be an interactive presentation of the developing field of palliative psychiatry, and will include first-hand experiences of two psychiatry residents (one who is now the Assistant Program Director for the general psychiatry residency) who have participated in this learning activity (rotation), and insights from the fellow on the service who interacts with the psychiatry residents as to how this brings a holistic perspective to the palliative psychiatry learning experience.*

Monday 3/27/2017

Time: 12:00 PM-1:30 PM

### **Use What You Have, Do What You Can: Incorporating Standardized Medicaid and Medicare Regulation Assessment Tools to Identify Home Care Patients with Cognitive Impairment**

Room: Miro

Track: Clinical

#### **Session # 415**

Chair: Gary Kennedy

Faculty: Jerome Korenblatt

Janice Korenblatt

Mirnova Ceide

*40% of homebound elders have a psychiatric disorder with dementia being the most common afflicting 29% of the homebound population. Mental disorders too often go unrecognized making the care of the homebound patients more complex and increase both morbidity and mortality from medical illness. In our previous work, 66% of home care patients referred to our psychiatric program had a neurocognitive disorder. During this session, a care manager from the Montefiore Diamond Managed Long Term Care Plan, director of social work from Montefiore Home care and the geriatric psychiatrist for the Montefiore Home Care Geriatric Psychiatry Program (MHC-GPP) will discuss how standardized State and Federal Assessment tools can be incorporated into screening for cognitive impairment in homebound older adults.*
