AMERICAN ASSOCIATION
FOR GERIATRIC PSYCHIATRY’S
2014 Annual Meeting
March 14–17, 2014
The Renaissance Orlando at SeaWorld
Orlando, Florida

Empower
Aging

ADVANCE PROGRAM

EARLY BIRD REGISTRATION DEADLINE:  January 23, 2014
PRE-REGISTRATION DEADLINE:        February 20, 2014

AAGPMeeting.org
An Invitation to Attend

The AAGP Annual Meeting Program Committee invites you to attend the 2014 Annual Meeting of the American Association for Geriatric Psychiatry in Orlando, Florida, to explore the treatments, causes and prevention of mental illnesses impacting the lives of older adults: depression, Alzheimer’s disease and other dementias, sleep disorders, schizophrenia, and more. Speakers will focus on both pharmacological treatments and nonpharmacological or behavioral approaches. Educational sessions will address multidisciplinary care, models of care, legal issues, and much more.

Who Should Attend?
Psychiatrists, advanced practice nurses, primary care physicians, geriatricians, certified case managers, medical directors of long-term care, neurologists, psychologists, directors of nursing, social workers, pharmacists, students, and others in the mental health field working with older adults and their families

Highlights
The AAGP Annual Meeting offers:

Clinical Case Presentations. Speakers will present clinical cases and invite participant discussion. In each session, hear three fascinating cases and give your opinion.

Plenary Sessions. Participants are invited to hear from the incoming AAGP president and celebrate the achievements of the 2014 award winners at the Opening Plenary. During Saturday’s plenary, leaders from several medical associations will discuss violence, guns and mental health issues. Hear from author and consumer advocate Kathy Cronkite during Sunday’s plenary session.

Self-Assessment Component. To help geriatric psychiatrists meet their Maintenance of Certification self-assessment requirement, the AAGP Annual Meeting offers a self-assessment component at no additional cost to those who register as full conference attendees by February 20. After completing a pre-test before the Annual Meeting, participants will be directed to a customized list of conference sessions to address their knowledge gaps, and receive a comparison of their performance to their peers. The American Board of Psychiatry and Neurology has reviewed the AAGP Annual Meeting Self-Assessment Exam and has approved this exam as part of a comprehensive self-assessment program, which is mandated by the ABMS as a necessary component of Maintenance of Certification.

What Makes This Conference Unique?
A variety of educational formats including standard didactic sessions, intensive workshops, group discussions, and scientific poster reviews

A comprehensive educational program with sessions geared towards clinicians, researchers, educators, and administrators, as well as those new to the field and those seeking the latest practice trends and research in geriatric psychiatry

Networking opportunities throughout the conference including interest group, caucus and committee meetings, social events, and small-group discussions

Continuing Education Offered
For physicians, nurses, psychologists, and social workers

Aafter a long day of sessions and thought-provoking conversation, we understand our attendees need a break to relax and explore the town! Orlando offers exciting cultural and entertaining attractions including music acts, golf, award-winning restaurants, shows, and parks.

Visit Orlando (www.visitorlando.com/plan-your-trip/visitor-guides/) is the official website run by the city of Orlando and includes a variety of helpful information, including free visitor guides.

Purchase tickets for events and attractions at the tours desk in the Renaissance SeaWorld Hotel.

**FEATURED ACTIVITIES**

**SeaWorld® Orlando** is across the street from the hotel and features many marine animals as well as rides, restaurants, and daily events. As an Official Hotel of SeaWorld®, registered guests of the Renaissance receive exclusive benefits including complimentary transportation, complimentary Quick Queue®, park discounts, and early entry to the park on selected dates. Stop by the Expedia Local Expert Guest Service Desk at the hotel to receive your benefits card and make a reservation for the SeaWorld Rescue Tour.

**Aquatica, SeaWorld’s Waterpark™** From high-speed water slides and exhilarating wave pools, to tranquil beaches and the remarkable animal habitats that are the hallmark of SeaWorld®, Aquatica, SeaWorld’s Waterpark™, delights all ages and interests. This one-of-a-kind waterpark is home to some of the world’s most thrilling water rides, featuring 38 slides, rivers and lagoons and 84,000 square feet of sparkling white, sandy beaches. Aquatica, SeaWorld’s Waterpark™, offers exclusive attractions that promise unlimited fun, sending guests on amazing undersea adventures and through breathtaking animal exhibits.

**Discovery Cove®** is a place where you and your family can swim with playful dolphins, snorkel with gentle rays and thousands of tropical fish, hand-feed colorful birds, encounter playful otters and curious marmosets in Freshwater Oasis™ and enjoy freshly prepared meals and beverages all day. Plus unlimited visits to BOTH SeaWorld® Orlando and Aquatica, SeaWorld’s Waterpark™ surrounding the date of your reservation.

**Universal Orlando® Resort** is six miles from the Renaissance and complimentary transportation is provided by the hotel. The theme park includes Universal Studios, Islands of Adventures, City Walk, and the Wet ‘n Wild water park. The new Wizarding World of Harry Potter is now open at Islands of Adventures.

**Walt Disney World® Resort** is 10 miles from the Renaissance. Enjoy the magic of the Disney parks. Discover big thrills and epic enchantment for the entire family!

**Kennedy Space Center Visitor’s Complex** hosts exhibits and displays, historic spacecraft and memorabilia, shows, two IMAX theaters, a range of bus tours of the spaceport, and the Shuttle Launch Experience, a simulated ride into space.

**Gatorland** provides affordable family fun while showcasing thousands of alligators and crocodiles including four extremely rare leucistic “white” alligators. The free-flight aviary, petting zoo, one of a kind animal shows, natural alligator breeding marsh, and the “thrilling” Screamin’ Gator Zip Line will ensure your day will be filled with fun, smiles and special memories.
GENERAL SCHEDULE OF EVENTS

Friday, March 14–Monday, March 17

CME sessions will begin at 1:30 PM on Friday, March 14 and end at 1:00 PM on Monday, March 17. Special pre-conference programs, including the popular Review Course in Geriatric Psychiatry and the Neuroscience Teaching Day, will be held March 14. An Opening Plenary Session followed by an Opening Reception will be held the evening of March 14. For a detailed schedule, see page 23.

SITE OF MEETING

The 2014 AAGP Annual Meeting will take place at:

Renaissance Orlando at SeaWorld
6677 Sea Harbor Drive
Orlando, Florida 32821
Phone: 800.327.6677

The Renaissance Orlando features a stunning 10-story sun-bathed lobby, luxurious guest rooms, and a distinctive, contemporary aquatic décor. Revitalize in the hotel’s state-of-the-art fitness center. Then retreat to the quiet, calming sanctuary of the nèu lotus spa. Indulge in exceptional dining in one of the outstanding restaurants. Or catch a wave of family adventure in the hotel’s new water park, R Aqua Zone, complete with a thrilling 120-foot water slide, water jets, a rain tree, and more. During your stay, explore neighboring SeaWorld and nearby Aquatica, Discovery Cove, Walt Disney World and Universal Studios. The Renaissance is also minutes from the area’s finest shopping, restaurants, and golf courses.

HOTEL INFORMATION

The AAGP has secured special AAGP Annual Meeting room rates at The Renaissance Orlando at SeaWorld. Hotel reservations must be made by February 5, 2014, in order to obtain the conference rate. Please reserve early as available rooms at the conference rate may fill up. By staying at the host hotel, you will help AAGP meet its contractual obligations with the Renaissance and keep future registration fees reasonable. Please consider this when deciding on accommodations. We encourage you to stay at the Renaissance.

The AAGP Room Rate for the 2014 Annual Meeting is $219 plus taxes. The Renaissance is now taking reservations. The deadline for this rate is February 5, 2014. Reserve early before rooms fill up.

TRANSPORTATION

AAGP Travel Agent
Globetrotter Travel Management Services
TOLL-FREE: 1.800.322.7032, press 1
E-MAIL: aagp@globetrottermgmt.com
FAX: 301.570.9514

Globetrotter Travel can assist you in finding travel discounts to the AAGP meeting. Please note that there is a service charge for booking airline tickets.

Getting To and Around Orlando

Getting to Orlando is quick and easy with an ever-growing list of flights to both of the area’s airports, Orlando International Airport (MCO) and Sanford Orlando International Airport (SFB), which is 30 miles away in Sanford. More than 40 airlines provide non-stop service into Orlando from 89 U.S. and 27 international destinations. Airfares to Orlando are the 4th lowest among the 50 largest U.S. airports.

Several shuttle and taxi services provide transportation to the Renaissance Orlando at SeaWorld. The Orlando Airport Van offers service 24 hours a day, 7 days a week, for only $9.99 per passenger, each way. Make a reservation at www.OrlandoAirportVan.us, or by calling 1.866.204.4000.

Travel by car is also convenient with a number of major highways flowing into Central Florida and throughout the rest of the state. From Interstate 95, drivers take Interstate 4 into Orlando.

Train passengers can enjoy the destination’s easy access to the Amtrak rail system. For ticket information, visit www.amtrak.com.

• Go online to https://resweb.passkey.com/go/aagp2014
• Or, call and identify yourself as a participant of the AAGP Annual Meeting: 1.888.789.3090 or 1.407.351.5555

Cancellations must be received at least 72 hours (3 days) prior to the arrival date in order to avoid a possible one night’s room and tax penalty on the credit card.
Once in Orlando, visitors can choose from a large selection of rental vehicles, taxis and limousines. For a list of transportation services, go to www.visitorlando.com/plan-your-trip/transportation.

Visitors traveling around International Drive can hop on board the I-Ride Trolley, a hop-on, hop-off service route exclusive to the International Drive Resort area. The I-Ride Trolley makes stops at a number of hotels and attractions on International Drive, including The Renaissance Orlando at SeaWorld. Learn more at www.iridetrolley.com.

SELF-ASSESSMENT ACTIVITY
To help geriatric psychiatrists meet their Maintenance of Certification self-assessment requirement, the AAGP Annual Meeting offers a self-assessment component to those who register as full conference attendees by February 20. The AAGP Annual Meeting Self-Assessment Exam offers 8.0 self-assessment CME credits. Participants who choose the self-assessment will receive a pre-test via email before the Annual Meeting. After completing the exam, participants will be directed to a customized list of Annual Meeting sessions to address their knowledge gaps, and receive a comparison of their performance to their peers. To choose the self-assessment component, select the option on the conference registration form and be sure to include your e-mail address. The exam is only available to full registrants and must be completed before the Annual Meeting.

The American Board of Psychiatry and Neurology has reviewed the AAGP Annual Meeting Self-Assessment Exam and has approved this exam as part of a comprehensive self-assessment program, which is mandated by the ABMS as a necessary component of Maintenance of Certification.

CME Accreditation
The American Association for Geriatric Psychiatry is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Designations of Credit
The AAGP designates this enduring material for a maximum of 8.0 AMA PRA Category 1 credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Review in Geriatric Psychiatry Self-Assessment Program
In addition to the overall Annual Meeting Self-Assessment activity, AAGP also offers a self-assessment activity in conjunction with the day-long Review in Geriatric Psychiatry to be held March 14. See page 16 for more details.

ATTIRE
Meeting attendees typically dress business-casual for the meeting. In March in Orlando, average temperatures range from the mid 50s °F at night to the high 70s °F during the day. In general, hotels can be cool.

MEMBERS OF THE PRESS
AAGP welcomes press coverage of its Annual Meeting, and invites journalists to apply for complimentary registration. Press credentials are required and complimentary registration is limited to working journalists of the general and mental health/medical/aging press. Journalists are encouraged to pre-register by contacting AAGP’s Kate McDuffie at kmcduffie@AAGPonline.org. Learn more at www.AAGPonline.org/press.

OTHER MEETINGS
Please note that all meetings or programs scheduled during the AAGP Annual Meeting need to be approved in advance by the AAGP. Meetings or programs that directly conflict with AAGP scientific programming are prohibited and cannot be scheduled in the headquarters hotel. The AAGP Annual Meeting is a convenient time for auxiliary gatherings, and auxiliary events are welcomed; however, please make sure to communicate with AAGP before scheduling a meeting to ensure that it is scheduled at a mutually beneficial time. If you wish to schedule a meeting in conjunction with the AAGP Annual Meeting, please contact Chris deVries at cdevries@aagponline.org.

MEETING WEBSITE
www.AAGPmeeting.org

Check the meeting website for conference news, program updates, information about AAGP, and things to do in Orlando.
Our Focus
Join conversations, gain access and have a voice on research, policy issues and clinical trends aimed at helping seniors living with:
- Alzheimer's
- Other dementias
- Depression
- Anxiety
- Substance abuse
- Other related illnesses

Our Membership
AAGP membership includes a diverse group of professionals who carry a passion for the field.
- Psychiatrists
- Physicians
- Neurologists
- Nurses
- Psychologists
- Social Workers
- Pharmacists
- Students

Your Benefits
AAGP benefits allow professionals to interact and expand their involvement through:
- Networking & Collaboration
- Access to Members-Only Website
- Educational Publications
- Discounts
  - Annual Meeting & Other Educational Programs
  - Professional Publications
  - Patient Brochures

(A staff representative will return your call)

FAX: 301.654.4137
The AAGP 2014 Annual Meeting program objectives are developed from the annual needs assessment analysis conducted by AAGP’s CME Committee and Annual Meeting Program Committee each year. This needs assessment utilizes various data sources including a search of current literature to identify gaps in professional practice knowledge for geriatric psychiatrists, past evaluations, web-based survey instruments, and consultation with experts. CME programming is structured around the identified objectives.

In 2014, the Annual Meeting program objectives focus on evidence-based treatments of late-life mental illness, specifically with a focus on empowering health care providers, patients, and families with the information and tools they need for quality mental health care.

Overall Program Objectives are listed here and, in addition, each individual session at the AAGP 2014 Annual Meeting also has identified Learning Objectives. Those objectives are listed on the AAGPmeeting.org website, the continuing education material included in the registration packet, and the meeting recordings.

OVERALL PROGRAM OBJECTIVES FOR THE 2014 ANNUAL MEETING

- Classify the major mental disorders of late life and contrast the presentation of the major mental disorders of late life with presentation among other patient populations
- Name the chief risk factors associated with each of the major mental disorders of late life and factors associated with optimal mental functioning
- Assess clinical pharmacotherapy and psychosocial treatments for late-life mental illness including depression, dementia, schizophrenia, delirium, bipolar disorder, Parkinson’s disease, generalized anxiety disorder, substance abuse, and sleep disorders, and apply best practices to individual treatment plans to impact quality of life
- Describe three age-related changes in pharmacologic response and how those changes make elders vulnerable to adverse outcomes
- List two psychiatric manifestations of medical diseases
- Identify behavioral interventions for managing agitation and other dementia-related behavioral issues and cite three evidence-based applications that can be utilized in complex cases
- Describe one complementary treatment approach that can be utilized in a psychosocial intervention
- Identify an ethical issue such as advance directives and end-of-life care and a best practice approach to resolving that issue
- Distinguish the delivery of culturally appropriate care to specific diverse populations in geriatric psychiatry practice by identifying the unique psychosocial needs of various groups of the elderly population
- Identify gaps in knowledge of aging and mental health and the research approaches to fill these gaps
- Describe the concepts of successful aging and quality of life as related to life transitions and mental status
AAGP members will have several opportunities to be involved with the association during the Annual Meeting. Take advantage of the following to learn how the association is impacting the field of geriatric psychiatry and how you can play a part. For more information, contact AAGP’s Marj Vanderbilt at mvanderbilt@AAGPonline.org.

AAGP BOARD OF DIRECTORS MEETING
Thursday, March 13
Executive Session 10:00 AM–12:30 PM
Open Session 1:30 PM–5:30 PM
The AAGP Board of Directors meeting is open to any member who wishes to observe.

AAGP MEMBERS’ BUSINESS MEETING
Friday, March 14 11:00 AM–12:00 NOON
(Open to All AAGP Members)
Come to the business meeting to hear about the ways AAGP has been working for you and to give your input into AAGP’s future direction. At the business meeting, President David Steffens, MD, and President-Elect Susan Schultz, MD, will update members on AAGP’s activities, and Secretary/Treasurer Laura Dunn, MD, will provide a report of the organization’s financial position.

AAGP COMMITTEES AND CAUCUSES
AAGP committees help to accomplish the work of the association throughout the year, meeting face-to-face at the Annual Meeting and continuing business by conference call and e-mail during the year. All of AAGP’s committees and caucuses meet during the Annual Meeting, and all members are invited to attend any of the meetings, unless otherwise noted. If you decide you would like to get more involved, go to www.AAGPonline.org/lists to join the online conversation. Governance meetings are listed in the program’s schedule of events, but are subject to change. For the most current information, check the committee schedule on the meeting website at www.AAGPmeeting.org.

PATHWAY TO LEADERSHIP
AAGP invites members to get involved and seek leadership positions on committees and on the Board of Directors. The organization needs a continual infusion of active volunteers and leaders in order to grow and prosper. Take this opportunity to shape the future of your association.

Getting involved in AAGP is easy! Simply show up at a meeting, and be a willing volunteer.

1. Join a committee or caucus and actively participate. AAGP is an organization of volunteers, and those who are willing to dedicate time and effort are welcome. Contact your chair and ask how you can help.

2. Seek a chair position. Talk with your chair or other AAGP leaders about how you can take on an increased role in a committee or caucus, perhaps as chair of a sub-committee or as a committee vice-chair. Committee chairs turn over every three years, and new volunteers are always needed.

3. Run for the Board of Directors. Submit your application to the AAGP Nominations Committee. Your participation and leadership on AAGP committees or other task forces and projects will be heavily weighted by the nominations committee.
Continuing Education Credits

PHYSICIANS—CME: LIVE

Accreditation Statement
The American Association for Geriatric Psychiatry is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation Statement
The American Association for Geriatric Psychiatry designates this live activity for a maximum of 31.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

PHYSICIANS—CME: ENDURING

Please note: physicians can earn additional CME by electing the AAGP Annual Meeting Self-Assessment Activity.

Self-Assessment Activity
To help geriatric psychiatrists meet their Maintenance of Certification self-assessment requirement, the AAGP Annual Meeting offers a self-assessment component to those who register as full conference attendees by February 20. The AAGP Annual Meeting Self-Assessment Exam offers 8.0 self-assessment CME credits. Participants who choose the self-assessment will receive a pre-test via email before the Annual Meeting. After completing the exam, participants will be directed to a customized list of Annual Meeting sessions to address their knowledge gaps, and receive a comparison of their performance to their peers. To choose the self-assessment component, select the option on the conference registration form and be sure to include your e-mail address. The exam is only available to full registrants and must be completed before the Annual Meeting.

The American Board of Psychiatry and Neurology has reviewed the AAGP Annual Meeting Self-Assessment Exam and has approved this exam as part of a comprehensive self-assessment program, which is mandated by the ABMS as a necessary component of Maintenance of Certification.

CME Accreditation
The American Association for Geriatric Psychiatry is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Designations of Credit
The AAGP designates this enduring material for a maximum of 8.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

PSYCHOLOGY, SOCIAL WORK CONTINUING EDUCATION

AAGP will be providing continuing education for psychologists and social workers through a partner accreditor.

NURSES CONTINUING EDUCATION

The American Association for Geriatric Psychiatry (AAGP)’s Annual Meeting is approved by the California Board of Registered Nursing, Provider Number CEP 14251 for 31.0 contact hours.

CERTIFIED CARE MANAGERS CONTINUING EDUCATION

AAGP is submitting the 2014 AAGP Annual Meeting for approval for continuing education for certified care managers.

DISCLOSURES FROM PLANNING COMMITTEE AND BOARD

All Committee members and staff in a position to influence the content of an educational activity, as well as all Board members, are required to complete and submit the Planning Committee Disclosure Form.

SEPARATELY TICKETED EVENTS

Review in Geriatric Psychiatry: Preparation for Subspecialty Examinations
A FULL-DAY PROGRAM DESIGNED FOR SUBSPECIALTY EXAM PREPARATION
Friday, March 14, 7:30 AM–4:45 PM
Participants of this program will hear how to select appropriate evaluation tools for diagnostic assessments, describe treatment interventions for psychiatric disorders in the elderly, compare and contrast treatment options in diverse practice settings, explain the role of the geriatric psychiatrist in health care systems, and discuss practice-related federal policies. Includes a Self-Assessment activity for pre-registrants. See page 16 for details. Register on the AAGP Annual Meeting Registration Form.

- Early-bird registration fee: $290 AAGP members
- $385 nonmembers
- After January 23, 2014:
- $340 AAGP members
- $435 nonmembers

Neuroscience Teaching Day: Sleep and Circadian Rhythms in Late-Life Mental Health
Friday, March 14, 8:30 AM–12:30 PM
Up to half of older adults have sleep complaints and related disorders. These problems can significantly complicate the clinical picture and may even contribute to cognitive decline and dementia. There is a need for greater awareness of the neurobiology of sleep and its importance for late-life psychiatry. The 7th Annual Neuroscience Teaching Day will address the crucial issue of sleep in older adults. Experts in basic, clinical, and translational research will provide geriatric psychiatrists and other mental health professionals with critical information regarding the neurobiology of sleep, age-related changes in sleep and circadian rhythms, their presentation in late-life neuropsychiatric disorders, and the most up-to-date approaches to treatment. See page 17. Register on the AAGP Annual Meeting Registration Form.

- Early-bird registration fee: $140 AAGP members
- $210 nonmembers
- After January 23, 2014:
- $165 AAGP members
- $240 nonmembers

AAGP-PAC Reception
Saturday, March 15, 7:00 PM–8:30 PM
Join your AAGP friends and colleagues on the poolside terrace at the Renaissance Orlando for an evening reception to support the American Association for Geriatric Psychiatry Political Action Committee. Enjoy refreshments, light fare, and a tropical evening under the stars as you discuss the issues of the day with other professionals in the aging and mental health field. AAGP members can contribute to the AAGP Political Action Committee and receive a ticket for this fun event. See page 22 for details.

INCLUDED IN THE AAGP ANNUAL MEETING REGISTRATION FEE

Opening Plenary and Awards Session
Friday, March 14, 5:00 PM–6:30 PM
Hear from incoming AAGP President Susan K. Schultz, MD, and celebrate the accomplishments of colleagues during the Awards Program.

Opening Reception
Friday, March 14, 6:30 PM–8:00 PM
Immediately following the Opening Plenary, all registrants are invited to the Opening Reception. Join your friends and colleagues in the festivities as we toast AAGP’s 2014 Award Winners. Separate tickets may be purchased for guests on the AAGP Annual Meeting Registration Form ($85 adult, $20 child 4–12 years).

Plenary Session: Findings from the Coalition on Mental Health and Violence
Saturday, March 15, 11:30 AM–12:30 PM
Hear from the leaders of the Coalition on Mental Health and Violence Issues, a group formed in 2013 by the American Psychiatric Association (APA) to promote better public awareness of the complex sources of violence in the United States and to recommend strategies for improving mental health care.

The Coalition was convened by then-APA President Dilip Jeste, MD, and included the AAGP along with other organizations representing psychiatrists, as well as the American Medical Association.
The Coalition emphasized that only three to five percent of all violent crimes are directly related to mental illness, and that people with mental illnesses are much more frequently victims rather than perpetrators of violence.

The Coalition recognized that there is a small minority of such individuals who are at high risk of committing violence against themselves and others, and that special measures are needed to identify these individuals and implement effective preventive and therapeutic strategies.

In order to decrease the occurrences of violence, the Coalition calls for the cooperation of mental health organizations, federal, state and local government agencies, the legislative and judicial branches of government, and the public at large to identify potentially dangerous individuals and intervene before major violent acts have been committed.

Plenary Session: Featuring Mental Health Advocate Kathy Cronkite
Sunday, March 16, 11:30 AM–12:30 PM
During Sunday’s plenary session, author and consumer advocate Kathy Cronkite will give voice to the issues of today’s mental health care climate. Ms. Cronkite is a popular writer, journalist, and public speaker. As one of millions who suffer from clinical depression, she has become a tireless champion for mental health.

Case Presentation Sessions
Saturday, March 15, and Sunday, March 16
Two Case Presentation Sessions on Saturday and Sunday will each feature three unusual cases followed by a group discussion. See the schedule of events for details.

Discussion Roundtables
Sunday, March 16, 3:15 PM–4:45 PM
Earn CME by participating in a small-group, in-depth discussion on a topic that interests you. Registrants will receive information about signing up, beginning in January.

Posters and Exhibit Hall Reception
Saturday, March 15, 4:30 PM–6:00 PM
Sunday, March 16, 4:30 PM–6:30 PM
Take in the latest research from established and early-career investigators. Talk to authors and enjoy refreshments in the Exhibit Hall.

Self-Assessment Activity for Psychiatrists
To help geriatric psychiatrists meet their Maintenance of Certification self-assessment requirement, the AAGP Annual Meeting offers a self-assessment component to those who register as full conference attendees by February 20. The AAGP Annual Meeting Self-Assessment Exam offers 8.0 self-assessment CME credits.

Participants who choose the self-assessment will receive a pre-test via email before the Annual Meeting. After completing the exam, participants will be directed to a customized list of Annual Meeting sessions to address their knowledge gaps, and receive a comparison of their performance to their peers.

To choose the self-assessment component, select the option on the conference registration form and be sure to include your e-mail address. The exam is only available to full registrants and must be completed before the annual meeting.
AAGP 2014 ANNUAL MEETING WORKSHOP

Review in Geriatric Psychiatry:
Preparation for Subspecialty Examinations

A FULL-DAY PROGRAM DESIGNED FOR
SUBSPECIALTY EXAM PREPARATION

Friday, March 14, 2014  7:30 AM–4:45 PM
Orlando, FL

William M. McDonald, MD, Program Chair

FACULTY
Allan A. Anderson, MD
Carl I. Cohen, MD
James M. Ellison, MD
Robert Greenberg, MD, MS
David Greenspan, MD
Robert Kohn, MD, MPhil
Eric Lenze, MD
Vaughn McCall, MD
Arnaldo Moreno, MD
David W. Oslin, MD
Adam Rosenblatt, MD
Martha Sajatovic, MD
Daniel Sewell, MD

Program Objectives
Individuals who participate in this program will be able to:
• Select appropriate evaluation tools for diagnostic assessments.
• Describe treatment interventions for psychiatric disorders in the elderly.
• Compare and contrast treatment options in diverse practice settings.
• Explain the role of the geriatric psychiatrist in health care systems.
• Discuss practice-related federal policies.

Content areas include:
• Geriatric Psychiatry: Evaluation and Diagnosis
• Dementias: From Risk Factors to Treatment
• Neurological Assessment and Common Neuropsychiatric Disorders
• Anxiety Disorders in Older Patients
• Psychotic Disorders in the Elderly
• Bereavement, Mood Disorders, and Suicide
• Substance Use Disorders
• Sleep Disorders in the Elderly
• Personality Disorders in the Elderly
• ECT: Therapy and Pharmacology
• Ethical, Forensic, and Regulatory Issues

Plus—
• Test-taking strategies
• Primer on Maintenance of Certification

Self-Assessment
Register by February 20 to be eligible to participate in the Review in Geriatric Psychiatry Self-Assessment Program as part of the Review Course. Pre-registrants will receive a pre-test via email, which must be completed before attendance at the course. Upon successful completion of the pre-test and attendance at the course, participants will earn a total of 10.5 hours of self-assessment CME. The American Board of Psychiatry and Neurology has reviewed the Review in Geriatric Psychiatry Self-Assessment Program and has approved this program as part of a comprehensive self-assessment program, which is mandated by the ABMS as a necessary component of Maintenance of Certification.

Register early and save!
(See Registration Form, Section C, page 43)
Advance registration fee:
$290 AAGP members
$385 nonmembers
After February 20, 2014:
$340 AAGP members
$435 nonmembers

Good preparation for the
Geriatric Psychiatry Maintenance of Certification Examination
April 21–25, 2014

EXAM APPLICATION DEADLINE: November 1, 2013
LATE DEADLINE: December 2, 2013
Learn more about the MOC exam at www.ABPN.com.

The American Association for Geriatric Psychiatry is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The AAGP designates this live activity for a maximum of 8.5 AMA PRA Category 1 credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
The AAGP Research Committee Presents
The Seventh Annual NEUROSCIENCE TEACHING DAY

Sleep and Circadian Rhythms in Late-Life Mental Health

Up to half of older adults have sleep complaints and related disorders. These problems can significantly complicate the clinical picture and may even contribute to cognitive decline and dementia. There is a need for greater awareness of the neurobiology of sleep and its importance for late-life psychiatry. The AAGP Research Committee is pleased to host the 7th Annual Neuroscience Teaching Day, which will address the crucial issue of sleep in older adults. Experts in basic, clinical, and translational research will provide geriatric psychiatrists and other mental health professionals with critical information regarding the neurobiology of sleep, age-related changes in sleep and circadian rhythms, their presentation in late-life neuropsychiatric disorders, and the most up-to-date approaches to treatment.

PROGRAM OBJECTIVES

• Describe three scientific advances regarding the neurobiology of sleep, as well as changes in sleep associated with aging and neurodegenerative disease
• Identify circadian rhythms: how they change with age, and how they are affected in mood and neurocognitive disorders
• Apply findings from neurobiological research to clinical neuropsychiatric practice in Alzheimer’s disease, Lewy body dementia and mild cognitive impairment

PROGRAM CO-CHAIRS

Martha Payne, PhD, RD, MPH

The AAGP-PAC Reception

Saturday, March 15
7:00 PM–8:30 PM
Renaissance Orlando at SeaWorld,
Poolside Terrace
TICKETED EVENT

Join your AAGP friends and colleagues on the poolside terrace at the Renaissance Orlando for an evening reception to support the American Association for Geriatric Psychiatry Political Action Committee.

Enjoy refreshments, light fare, and a tropical evening under the stars as you discuss the issues of the day with other professionals in the aging and mental health field.

Register for the AAGP Annual Meeting and Contribute to the AAGP-PAC:
www.AAGPmeeting.org

Tickets
Reserve your tickets for this special event by making a contribution to the AAGP-PAC on your AAGP Annual Meeting Registration Form.

- AAGP Members: $100 contribution to the AAGP-PAC*
- Members-In-Training/Student Members: $70 contribution to the AAGP-PAC*
- Children: Additional $40 contribution to the AAGP-PAC* (for a child under age 18 accompanied by a ticketed adult)

* Between May 1, 2013 and March 15, 2014

AAGP-PAC is a separate, segregated fund established by the AAGP. Individuals may make voluntary contributions to the AAGP-PAC using personal checks made payable to the AAGP-PAC or with an individual Visa, MasterCard, or American Express. Contributions from corporations and associations are illegal and will be returned. Under federal law, only U.S. citizens or permanent resident aliens (green card holders residing in the U.S.) may contribute to, or be solicited for, a political action committee or a political campaign. Gifts to political action committees are not tax deductible.
Schedule of Events

This program is subject to change. Please check www.AAGPmeeting.org for updates.

PROGRAM TRACK KEY
The Annual Meeting Program Committee has identified the following areas of interest to help attendees plan their schedules.

THURSDAY, MARCH 13

10:00 AM–5:30 PM
AAGP Board of Directors Meeting
The meeting is open from 1:30 PM to 5:30 PM to AAGP members who wish to observe. The Board is in a closed session from 9:30 AM to 1:30 PM.

FRIDAY, MARCH 14

7:30 AM–4:45 PM
△ Review In Geriatric Psychiatry: Preparation for Subspecialty Examinations
Sponsored by the AAGP Continuing Medical Education Committee (TICKETED EVENT)
Chair: William M. McDonald, MD
A full-day program designed for subspecialty exam preparation. Content areas include: evaluation and diagnosis; dementia risk factors and treatment; neurological assessment and common neuropsychiatric disorders; anxiety disorders in older patients; psychotic disorders in the elderly; bereavement, mood disorders, and suicide; substance use disorders; sleep disorders; personality disorders; ECT therapy and pharmacology; ethical, forensic, and regulatory issues; plus test-taking strategies and a primer in Maintenance of Certification. Register Early and Save! Register by February 20 to be eligible to participate in the Review in Geriatric Self-Assessment Program as part of the Review Course. For more information, see page 16.

7:30 AM–12:00 NOON
〇 AAGP’S 2014 Training Directors’ Workshop
Sponsored by the AAGP Teaching and Training Committee
Chairs: Shilpa Srinivasan, MD
Sibel Klimstra, MD
The AAGP Training Directors Workshop is open to all directors of geriatric psychiatry fellowship programs, or their designees. This long-running, annual workshop is designed to:
• present new ideas to help directors of geriatric psychiatry fellowship programs grow their programs and improve upon educational offerings;
• foster a team approach to recruiting trainees into the field of psychiatry and into geriatrics specifically;
• give training directors an opportunity to discuss issues, regulations, and current events that are impacting their training programs.

The workshop will include presentations and open discussion forums on a number of topics, as well as updates on AAGP initiatives through the Teaching and Training Committee. Advance registration is required. Please register in section C of the AAGP Annual Meeting Registration Form on page 43 or online at www.AAGPmeeting.org. Free to AAGP Members.

8:30 AM–12:30 PM
△ Neuroscience Teaching Day: Sleep and Circadian Rhythms in Late-Life Mental Health
Sponsored by AAGP’s Research Committee (TICKETED EVENT)
Chairs: Martha Payne, PhD, RD, MPH
Adam Spira, PhD
Faculty: Clifford Saper, MD, PhD
Phyllis Zee, MD
Donald Bliwise, PhD
Up to half of older adults have sleep complaints and related disorders. These problems can significantly complicate the clinical picture and may even contribute to cognitive decline and dementia. There is a need for greater awareness of the neurobiology of sleep and its importance for late-life psychiatry. The AAGP Research Committee is pleased to host the 7th Annual Neuroscience Teaching Day, which will address the crucial issue of sleep in older adults. Experts in basic, clinical, and translational research will provide geriatric psychiatrists and other mental health professionals with critical information regarding the neurobiology of sleep, age-related changes in sleep and circadian rhythms, their presentation in late-life neuropsychiatric disorders, and the most up-to-date approaches to treatment. For more information, see page 17.
11:00 AM–12:00 NOON
AAGP Members’ Business Meeting
(OPEN TO ALL AAGP MEMBERS)

Come to the business meeting to hear about the ways AAGP has been working for you and to give your input into AAGP’s future direction. At the business meeting, President David Steffens, MD, and President-Elect Susan Schultz, MD, will update members on AAGP’s activities, and Secretary/Treasurer Laura Dunn, MD, will provide a report of the organization’s financial position.

1:30 PM–3:00 PM

Beyond “Start Low and Go Slow”: What Every Graduating Medical Student Needs to Know About Geriatric Psychiatry

Chair: Susan W. Lehmann, MD
Faculty: Mary Blazek, MD
Dennis M. Popeo, MD
William B. Brooks, MD

Four geriatric psychiatrists, who are also medical student educators, will discuss what we must do now to prepare future physicians to meet the mental health needs of their older patients. Content includes review of the 2012 Institute of Medicine report on the mental health workforce for older adults and its urgent call for national curricula in geriatric psychiatry. Recent work by the AAGP Medical Student Education Workgroup in developing geriatric psychiatry learning objectives and educational strategies for medical students will be presented.

1:30 PM–3:00 PM

Dementia at the End of Life

Chair: Jonathan T. Stewart, MD
Faculty: Inna Sheyner, MD, CMD
Barbara Lubrano di Ciccone, MD

This workshop will provide practical strategies for working with patients with end-stage dementia and with their families.

1:30 PM–3:00 PM

Late-Life Schizophrenia: New Research Findings

Chair: Dilip V. Jeste, MD
Faculty: Paul Meesters, MD, PhD
Carl I. Cohen, MD
Ipsit Vahia, MD

This symposium will present recent findings from international research projects in the field of late-life schizophrenia. The topics will include subjective quality of life, both from a cross-sectional (Meesters) and longitudinal (Cohen) point of view. Also, new data on trajectories of outcome in late-life schizophrenia (Vahia) will be presented. Dilip Jeste will serve as discussant, highlighting the clinical relevance of the presented research findings.

1:30 PM–3:00 PM

Innovative Research on Suicide in Older Adults

Faculty: Dimitris N. Kiosses, PhD
Katalin Szanto, MD
Yeates Conwell, MD

Discussant: George S. Alexopoulos, MD

The symposium will focus on correlates of baseline suicide ideation, explore a newly developed stress/diathesis model of suicidal behavior in late life, and describe a randomized trial of peer companionship and its effect on depression, suicide ideation and psychological and structural connectedness.

1:30 PM–3:00 PM

Stump the Chumps! The Woman Who Could Only Speak Pig Latin, and Other Odd Cases

Chair: Susan S. Rose, PhD, NP
Discussant: Maureen C. Nash, MD, MS

This session will discuss odd presentations, unusual cases, and uncommon presentations of common disorders.

3:15 PM–4:45 PM

Moving Psychosocial Interventions to Populations With Challenging Problems

Faculty: Dimitris N. Kiosses, PhD
Catherine Ayers, PhD, ABPP
Julie Wetherell, PhD
JoAnne Sirey, PhD

The presentation will focus on psychosocial interventions for patients with challenging problems and address: patients recovering from severe depression treated with ECT, patients with hoarding disorder, homebound older adults with significant medical comorbidity, and victims of elder abuse.

3:15 PM–4:45 PM

CPT Coding and Documentation Update

Chair: Allan A. Anderson, MD
Faculty: David Greenspan, MD

The goals of this presentation are to inform practitioners about changes to the CPT Coding that took effect in January 2013. This presentation will focus on a review of the new CPT codes for 2013, including the major changes in psychiatric coding as well as a review of use of Evaluation and Management CPT codes as these codes will be more often used by psychiatrists, especially with the elimination of code 90862. Documentation guidelines will be a focus of this presentation as there are many clinicians who have limited knowledge of the requirements, specifically as they relate to the use of E&M codes. Time will be reserved for questions.
FRIDAY, MARCH 14 (CONT.)

3:15 PM–4:45 PM

Trajectories of Risk and Symptom Expression in Late-Life Depression
Chair: George Niederehe, PhD
Faculty: Kristine Yaffe, MD
        Hillary R. Bogner, MD, MSCE
        Joyce T. Bromberger, PhD

This session will highlight funded research of the National Institute of Mental Health (NIMH) that examines course and trajectories among people with late-life depression. Studies will discuss outcomes across periods of risk and responses to treatment over time.

3:15 PM–4:45 PM

Saying Goodbye: A Stimulus Video Documentary of Attachment and Loss at the End of Life
Faculty: Geraldine Fox, MD, MHPE

End-of-life presents a complex series of decisions and emotional challenges to the individual, family, and health professional, including end-of-life decisions, differentiation of depression from an informed decision about treatment termination, and collaborative decision-making. Health care professionals need to develop empathic skill in working with families who are dealing with losing a loved one. The use of carefully chosen stimulus video clips provides one method of engaging participants in discussion about complex issues, fostering empathic connection, and encouraging higher-order learning.

3:15 PM–4:45 PM

TelePsychiatry: Seamless Integration in Delivering Comprehensive Psychiatric Care
Chair: Joel Kirson, MD
Faculty: Alexander Threlfall, MD
        Paul D.S. Kirwin, MD

This session will discuss the evolution of TeleHealth and review its role in psychiatry as an effective tool in expanding our efforts to reach underserved areas and address the unmet needs in geriatric psychiatry. The symposium will function to dispel the myths of TelePsychiatry and educate the audience of its modern day application in expanding comprehensive care for our geriatric patients.

3:45 PM–4:45 PM

AAGP Diversity Caucus Meeting

5:00 PM–6:30 PM

Opening Plenary and Awards Session

WELCOME
Melinda S. Lantz, MD
AAGP Annual Meeting Program Chair

PRESIDENTIAL PLENARY ADDRESS:
Breakthroughs in Science and Beneficence in Care:
A Charge for the AAGP
Susan K. Schultz, MD
AAGP President-Elect

AAGP AWARDS PRESENTATION
David C. Steffens, MD, MHS
AAGP President

6:30 PM–7:30 PM

Opening Reception

Immediately following the Opening Plenary, all registrants are invited to an Opening Reception with light refreshments (separate tickets may be purchased for guests). Join your friends and colleagues as we toast AAGP’s 2014 Award Winners.

7:30 PM–8:30 PM

Trainee and Training Director Reception

(EVENT OPEN ONLY TO STUDENTS/RESIDENTS/FELLOWS AND TRAINING DIRECTORS)

All trainees are invited to attend this special networking reception for a relaxed opportunity to connect with other trainees, as well as meet geriatric psychiatry training directors.
SATURDAY, MARCH 15

7:30 AM–9:30 AM
Breakfast Symposium

7:30 AM–8:30 AM
Scholars Breakfast (INVITED PARTICIPANTS)

7:30 AM–9:30 AM
American Journal of Geriatric Psychiatry Editorial Board Breakfast (INVITED PARTICIPANTS)

8:30 AM–11:15 AM
Scholars Program for Medical Students and Psychiatry Residents
Sponsored by the AAGP Teaching and Training Committee and funded by the Geriatric Mental Health Foundation
Chair: Kirsten Wilkins, MD
Michelle Conroy, MD

This program is designed to increase interest in geriatric psychiatry among medical students, inform about opportunities to learn more about clinical elective and research opportunities during medical school, and inform about opportunities available in psychiatry residency programs. The program also showcases the benefits of fellowship training in geriatric psychiatry, educates residents about the scope and practice of geriatric psychiatry, and fosters professional relationships to assist residents with career planning now and in the future. All trainees are connected with a mentor who can help them to further their understanding of the profession and enhance their academic learning.

All residents and medical students who are registered for the Annual Meeting are invited to join the Scholars Program and Mentoring Lunch, regardless of whether or not you are provided a scholarship to attend. Registration is required. Sign-up for those without scholarships will open in December at www.AAGPonline.org/scholars.

9:45 AM–11:15 AM
Optimizing Depression Care and Treatment for Recipients of Home-based Services
Chair: Yolonda Pickett, MD, MS
Faculty: Kisha N. Bazelaiz, PhD
JoAnne Sirey, PhD
Martha L. Bruce, PhD, MPH

There are significant barriers unique to older homebound adults that contribute to under-detection and under-treatment of depression. This session will focus on identifying the mental health needs of this population and strategies to improve home-based services.

9:45 AM–11:15 AM
Update on Geriatric Sleep Disorders
Chair: William M. McDonald, MD
Faculty: William V. McCall, MD, MS
Andrew Namen, MD
Donald L. Bliwise, PhD

The symposium will feature three experts in the area of geriatric sleep disorders discussing the diagnosis and treatment of sleep disorders that are common in the elderly.

9:45 AM–11:15 AM
Implementation of Integrated Collaborative Geriatric Mental Health Care Models: What Have We Learned from a Decade of Experience?
Chair: Joel E. Streim, MD
Faculty: Malaz Boustani, MD, MPH
Jürgen Unützer, MD, MPH, MA
David W. Oslin, MD

Geriatric mental health services research has provided a strong foundation of evidence for the effectiveness of collaborative care models for integrating mental health care within primary care systems. Based on this evidence, several of these models have been disseminated, with various collaborative care programs implemented over the past decade in the context of the health care reform movement in the United States. This symposium will examine the implementation experience of a few select programs, focusing on (1) elements and strategies that led to successful implementation, (2) challenges to implementation and approaches to managing barriers, and (3) the continual process of measurement, learning, adaptation and program improvement.

9:45 AM–11:15 AM
To Use or Not to Use: That is the Question for Clinicians Prescribing Dementia Drugs. A Clinician’s Debate
Sponsored by the AAGP Clinical Practice Committee
Chair: Istvan J. Boksay, MD, PhD
Faculty: Maureen C. Nash, MD, MS
Sandra S. Swantek, MD

Two experienced clinicians will discuss the pros and cons of using dementia-specific medications to treat older adults with Alzheimer’s disease, vascular dementia, Lewy body dementia and Parkinson’s disease dementia.
CASE PRESENTATION SESSION 1

△ 'My Daughter is Hanging from a Plant Pot': A Case of Lewy Body Dementia
Faculty: Sarah Brunelle, MD
Ms. L, a 92-year-old widow, was at first amused and unconcerned by visual hallucinations, which she knew were not real. But over several months, she became more distraught by the hallucinations and the diagnosis of dementia, possibly Lewy body dementia (LBD). She thought her family was attempting to make her sick by ‘messing’ with her mind, possibly using magic. She was very concerned by the loss of independence and autonomy related to the dementia diagnosis. Learn about Ms. L’s history, the investigations that led to her diagnosis, and treatment.

△ A Case Study Revealing the Complications in Diagnosing Frontotemporal Dementia, Behavioral Variant
Faculty: Uma Suryadevara, MD
What would cause a significant change in personality in a 75-year-old man? How did Mr. A, a high-functioning insurance executive, living by himself and doing well, change from a successful, polite individual to one arrested for domestic violence and hospitalized for impulsivity, agitation, and poor decision making. Mr. A was charged with domestic violence for beating his son, and arrested for making verbal threats and harassing phone calls to other family members. Learn about Mr. A and how it took nearly three years to diagnose this case as possible frontotemporal dementia, behavioral variant based on the International Consensus Criteria for behavioral variant Frontotemporal Dementia and also DSM-5.

△ 76-year-old Male with Progressive Speech Impairment and Related Cognitive Decline
Faculty: Shuja Haque, MD
Mr. D is a 76-year-old divorced male with a history of a gradual deterioration in his speech that was first noted five years earlier. At first he was able to correct his sentences when prompted, but over time his speech has become incomprehensible. His speech impairment was accompanied by cognitive decline with progressive memory impairment. With progression of dementia, he has become irritable and difficult to redirect. He was referred for evaluation by his primary care provider due to increased agitation with decreased sleep and yelling and pacing at night. Learn about Mr. D’s condition, his attempts to communicate, a possible diagnosis, and treatment.

11:30 am–12:30 pm
△ Plenary Session: Findings from the Coalition on Mental Health and Violence
Faculty: Paul D.S. Kirwin, MD, Past President, AAGP
Dilip Jeste, MD, Past President, APA
Jeremy Lazarus, MD, Past President, AMA
In April 2013, the American Psychiatric Association (APA) formed the Coalition on Mental Health and Violence Issues, which includes organizations representing psychiatrists, and the American Medical Association, to promote better public awareness of the complex sources of violence in the United States and to recommend strategies for improving mental health care. The Coalition was convened under the leadership of then President of the APA, Dilip Jeste, MD, and included the AAGP. The Coalition emphasized that only three to five percent of all violent crimes are directly related to mental illness, and that people with mental illnesses are much more frequently victims rather than perpetrators of violence. The Coalition recognized that there is a small minority of such individuals who are at high risk of committing violence against themselves and others, and that special measures are needed to identify these individuals and implement effective preventive and therapeutic strategies. In order to decrease the occurrences of violence the Coalition calls for the cooperation of mental health organizations, federal, state and local government agencies, the legislative and judicial branches of government, and the public at large to identify potentially dangerous individuals and intervene before major violent acts have been committed.

10:00 AM–11:30 AM
△ AAGP Research Committee Meeting
3:00 PM–4:30 PM
△ Delusional Depression in Late Life: Treatment Effects on Mood, Psychosis, Cognition and the Brain
Chair: Barnett S. Meyers, MD
Faculty: Benoit H. Mulsant, MD, MS, FRCPC
        Ellen M. Whyte, MD
This symposium will present data on the treatment outcomes of late-life delusional depression, focusing on not only the resolution of depressive and psychotic symptoms but also the relationship of treatment outcome with cognitive status and with brain structure.

3:00 PM–4:30 PM
◆ Intensive Team Training to Meet the Needs of Dementia Patients: Positive Care Skills and Routines that Can Help
Chair: Helen H. Kyomen, MD
Faculty: Teepa L. Snow, MD, OTR/L
This session is designed to teach dementia care providers to consistently use a structured problem solving strategy when confronted with behavioral symptoms of dementia at various stages of progression. This strategy is intended to be used before pharmacological treatments are needed as a primary or solitary intervention.

3:00 PM–4:30 PM
◆ Understanding Psychosis in Parkinson’s Disease
Chair: William M. McDonald, MD
Faculty: Laura Marsh, MD
        Daniel Weintraub, MD
Patients with Parkinson’s disease are often referred to psychiatry for the management of psychiatric symptoms that can be due to a number of etiologies including medications, the disease process or overlapping syndromes such as dementia with Lewy bodies.

3:00 PM–4:30 PM
△ Honors Scholars Alumni Session
Sponsored by the AAGP Teaching and Training Committee
(OPEN TO ALL ATTENDEES)
Chair: Kirsten Wilkins, MD
The GMHF Scholars Program is proud to welcome back Honors Scholars alumni, who will each provide a 20-minute presentation on the scholarly project they completed as part of the Scholars Program. Following each presentation, there will be 10 minutes allotted for interactive discussion with the audience. Attend this session to hear about the exciting work of these exceptional trainees.

3:00 PM–4:30 PM
△ Cognition, Biomarkers, and Outcomes in Geriatric Mood Disorders
Chair: Helen Lavretsky, MD
Faculty: Howard Aizenstein, MD
        Ruth O’Hara, PhD
        George S. Alexopoulos, MD
Overwhelming epidemiological and clinical evidence indicate a bi-directional relationship between cognitive impairment and late-life depression. For example, cognitive decline can precipitate a late-onset depression and influence depression clinical outcomes, while late-life depression is a risk factor for cognitive decline and development of dementia. Early identification of high-risk groups using sophisticated neuroimaging and peripheral biomarkers can aid in early detection of groups at-risk for cognitive decline and poor antidepressant response, and help institute individualized treatments targeting the underlying mechanisms. This panel will highlight the recent unpublished findings demonstrating the use of neuroimaging biomarkers to identify the high-risk groups and as predictors of clinical outcomes.

3:00 PM–4:30 PM
◆ ELECTION 2014: The Stakes for Mental Health and Aging Advocates
Chair: Ilse R. Wiechers, MD, MPP
Faculty: David Wasserman, MA
This public policy workshop will explore the upcoming November 2014 midterm Congressional elections, the potential composition of the 114th Congress, and what those factors may mean for advocates of mental health and aging policies and programs. It will provide participants with a look forward to the 2014 midterm congressional elections and the impact of those elections on health care and aging issues over the next two years.

3:00 PM–4:30 PM
CASE PRESENTATION SESSION 2
◆ To Be or Not to Be: Dialysis Discontinuation and Depression in the Elderly
Faculty: Shruti Mutalik, MD
Hear about a case in which clinicians were asked to evaluate depression and capacity to refuse dialysis in a 77-year-old male with end-stage renal disease on hemodialysis for three years, who refused dialysis and was eventually transferred to hospice and died within a few days. This case raises several questions due to the patient’s history of untreated depression, a suicide attempt within the preceding year, acute pain, and family dynamics. The case highlights the issue of dialysis discontinuation in the elderly patient in the setting of depression, cognitive impairment, and awareness of the physical and emotional cost of dialysis on the patient and his or her family.
**Multidisciplinary Approach to Treatment of Comorbidities**

Faculty: Marianne Bergheim, MD

A 66-year-old combat veteran with a long history of post traumatic stress disorder and alcohol dependence was voluntarily admitted to inpatient psychiatry for evaluation of worsening depression and memory complaints. Learn about this patient’s medical history, which includes abdominal pain, insomnia, and weight loss, and the diagnosis of frontotemporal dementia (FTD). Hear how the treatment team met with the patient’s family and assisted with future planning including advanced directives and power of attorney.

**A Palliative Care Rotation for General Psychiatry Residents: New Horizons in Psychiatric Residency Training**

Faculty: Andrew N. Dentino, MD, FAPA

In 2008, the American Board of Medical Specialties formally recognized Hospice and Palliative Medicine (HPM) as a subspecialty. Fellowship programs are open to graduates of any of ten different parent residencies, including psychiatry. This report chronicles the experience of one PG1 on a palliative care rotation. The extraordinary success of this rotation, especially pertaining on the medical knowledge, patient care, interpersonal communication and professionalism domains of the psychiatry residency experience, are chronicles by the resident, and its effects on his personal journey to become a future psychiatrist.

3:30 PM–5:00 PM

**AAGP Teaching & Training Committee Meeting**

3:30 PM–6:00 PM

**Exhibit Hall Open**

4:30 PM–6:00 PM

**New Research Posters**

4:30 PM–6:00 PM

**Exhibit Hall Reception**

4:45 PM–6:15 PM

**Caring for Vulnerable Elders: Clinical Collaborations with Adult Protective Services**

Chair: Jason E. Schillerstrom, MD
Faculty: Elizabeth J. Santos, MD
      Kelly L. Dunn, MD

This workshop will introduce the audience to successful academic and private practice collaborations with state agencies designated to protect vulnerable elders from abuse, neglect, and exploitation. Original data and recent literature describing the psychological impact of abuse, cognitive correlates of decisional capacity, and effective models of interdisciplinary collaborations with Adult Protective Services (APS) will be presented. Case examples will be used to illustrate how geriatric psychiatrists can work with APS to advocate for elders suffering from neglect, abuse, or exploitation.

4:45 PM–6:15 PM

**Mock Trial of a Lawsuit Alleging Financial Fraud Against a 79-Year-Old Woman by an Insurance Agent and an Insurance Company**

Chair: Elliott M. Stein, MD
Faculty: Sanford I. Finkel, MD
      Benjamin Liptzin, MD
      Barry Reisberg, MD
      Jay Luxenberg, MD

This is a mock trial of a case filed against an insurance agent and against an insurance company for selling several insurance policies and annuities to a 79-year-old widow including some which would not start paying out for many years (e.g., when she would be in her 90s). An appointed guardian brought the lawsuit several years later after the woman developed dementia. The case alleges that the agent should have known she was cognitively impaired and that the insurance company targeted elderly infirmed people to buy policies.

4:45 PM–6:15 PM

**Discussing CPT Coding and Documentation: A Q&A Session**

Chair: Allan A. Anderson, MD
Faculty: Junji Takeshita, MD

This session will begin with some brief introductory comments about the coding changes. The remainder, and predominant time, of this session will be devoted to a question and answer format for a lively discussion on the topic of the CPT coding changes.

6:30 PM–7:30 PM

**ARI and SRI Reception**

7:00 PM–8:30 PM

**AAGP-PAC Reception**

(TICKETED EVENT)

See **page 22** for details.
SUNDAY, MARCH 16

7:30 AM–8:30 AM  
Past Presidents’ Meeting  
(PAST PRESIDENTS ONLY)

7:30 AM–9:30 AM  
Breakfast Symposium

8:00 AM–9:30 AM  
AAGP-PAC Board of Directors Meeting  
(AAGP-PAC BOARD MEMBERS ONLY)

8:00 AM–10:00 AM  
Developing Your Research Career  
Sponsored by the AAGP Research Committee  
This meeting provides information on opportunities for new researchers in geriatric psychiatry and how to get started, obtain research training and support, and persist in the research field.

9:30 AM–11:00 AM  
AAGP Clinical Practice Committee Meeting

9:45 AM–11:15 AM  
Emotion Regulation in Late-Life Depression: Neural Models to Treatment Strategies  
Chair: Moria Smoski, PhD  
Faculty: Warren D. Taylor, MD, MHSc  
Patricia A. Arean, PhD  
David C. Steffens, MD, MHS  
Major depressive disorder has been characterized as a disorder of emotion regulation, in which cognitive, behavioral, and biological processes that typically manage corrections to negative affect are less effective in modulating negative emotions. In late-life depression (LLD), age- and vascular-related neuroanatomical changes further impact regulatory ability. This symposium will present recent work examining emotion regulation in LLD from circuits to therapeutic approaches.

9:45 AM–11:15 AM  
Integrating Neuroimaging into Clinical Trials: Opportunities & Challenges  
Chair: Jovier Evans, PhD  
Faculty: Howard Aizenstein, MD  
Georgios Petrides, MD  
Faith M. Gunning-Dixon, PhD  
This session will highlight funded work of the National Institute of Mental Health to examine biomarkers of pathophysiology and treatment outcome among older adults with late-life depression.

9:45 AM–11:15 AM  
Addressing Sex and Sexuality with Older Adults: An Opportunity to Learn and Practice Effective Communication Techniques  
Chair: Dennis M. Popeo, MD  
Faculty: Daniel D. Sewell, MD  
Kevin K. Johnson  
Discussant: Janet M. Abrams, MSW  
Sexuality remains an important aspect of an older person’s identity however, medical professionals find talking about sex with older patients to be a challenge. This interactive workshop will allow participants to learn tips and techniques for discussing issues about sexual identity and sexual functioning with older adults, and then practice what they have learned.

9:45 AM–11:15 AM  
The Exam Starts in the Hallway: Movement Disorders in Geriatric Psychiatry  
Chair: Laura Marsh, MD  
Faculty: William M. McDonald, MD  
Nikolaus McFarland, MD, PhD  
Sarah Fayad, MD  
Movement disorders are commonly encountered in the clinical practice of geriatric psychiatry. Drug-induced movement disorders can develop in patients treated for psychiatric disorders, though the introduction of atypical antipsychotic medications has led to a reduced emphasis on their recognition and management. Neurodegenerative diseases also result in motor dysfunction, gait changes, and abnormal movements, as well as psychiatric disturbances. From the perspectives of geriatric psychiatrists and neurologists with expertise in movement disorders, the presentations, including videos, will review the features and clinical course of movement abnormalities that occur in geriatric psychiatry patients and their differential diagnosis, specific phenomenology, and management.

9:45 AM–11:15 AM  
Early Experiences with Implementation of Accountable Care Organizations (ACOs): How are Geriatric Mental Health Services Provided?  
Chair: Joel E. Streim, MD  
Faculty: Benjamin Liptzin, MD  
Henry Chung, MD  
Jules Rosen, MD  
This symposium will serve as a forum for sharing early Accountable Care Organization (ACO) implementation experiences from the past two years of health care reform initiatives, with an emphasis on approaches to integration of geriatric mental health care within ACOs. Psychiatrists from three different regions of the United States, with administrative responsibilities in three different health care organizations, will serve as presenters.
9:45 AM–11:15 AM
CASE PRESENTATION SESSION 3

The Dilemma Continues: Distinguishing Depression and Delirium
Faculty: Jacqueline Decker, DO

The presenter will describe the case of a 76-year-old male patient with a medical history significant for pharyngeal squamous cell carcinoma s/p resection and radiation, which resulted in odonophagia and dysphagia. The patient had a PEJ placed four days prior to admission to a medical unit for aspiration pneumonia. Patient also underwent a cervical laminectomy of C3–C6 for chronic cord compression during the hospitalization. Psychiatry was consulted three weeks after admission to the hospital for depression. During the initial consult, the patient reported depressed mood for the past three weeks, anhedonia, initial insomnia lasting for hours, decreased energy and concentration, and reported passive suicidal ideation of “I want to die.” Hear how the patient was diagnosed and treated.

70-Year-Old Male with Primary Progressive Aphasia
Faculty: Adharsh Sahadevan, MD, MPH

Mr. G is a 70-year-old married male who was referred for a geriatric psychiatric evaluation after he was found wandering in a parking lot 80 miles away from home. He was admitted to the neurology service of the local hospital and considered to have a primary progressive aphasia (subtype of frontotemporal dementia). His wife reported a 3-4 year history of cognitive impairment beginning with language difficulties, and progressing to memory impairment and global cognitive impairment in the past year. Mr. G becomes agitated at home, and occasionally agitated due to problems communicating. He has a poor appetite, and on exam, Mr. G appears thin with evidence of recent weight loss. Hear details of his condition, diagnosis, and treatment.

Psychosis of Neurosyphilis in a Chinese Immigrant
Faculty: Arnabh Basu, MBBS

Neurosyphilis is an insidious, progressive and destructive infection of the brain and spinal cord. It can present in any stage of syphilis but most commonly manifests in tertiary syphilis. Neurosyphilis occurred in about 30% of patients with syphilis in the pre-antibiotic era though current prevalence is much reduced. Patients may be asymptomatic or may have varied presentations such as neuropsychiatric symptoms, meningovascular symptoms and myelopathies such as tabes dorsalis. This is the case of a 68-year-old Cantonese-speaking Chinese female with no past psychiatric history presenting with one month of psychotic symptoms, cognitive and behavioral impairment with social withdrawal that did not respond to titration of antipsychotics. Learn more about this patient and her remarkable response to treatment.

11:30 AM–12:30 PM
Plenary Session: Featuring Mental Health Advocate Kathy Cronkite
Co-sponsored by the AAGP and the Geriatric Mental Health Foundation
Faculty: Kathy Cronkite

In this special plenary session, hear from Kathy Cronkite, a popular writer, journalist, and public speaker. As one of the millions who suffer from clinical depression, she has become a tireless champion for mental health. As an advocate, Cronkite delivers a clear message: “Depression must be accepted as the medical condition it is in order to combat the stigma attached to it and to make help available for those who suffer from it.” Cronkite is the author of On the Edge of Darkness: Conversations About Conquering Depression, a book that has received wide acclaim for an informative and eloquent treatment of mental illness. For the book, Cronkite interviewed celebrities who suffer from depression, including Mike Wallace, Joan Rivers, Dick Clark, Kitty Dukakis, Rod Steiger, and William Styron, as well as expert researchers of mental illness. Cronkite is the daughter of famed television newscaster Walter Cronkite.

12:30 PM–1:30 PM
Exhibit Hall Lunch

1:00 PM–2:00 PM
AAGP VA Caucus Meeting

1:00 PM–2:30 PM
AAGP Nominations Committee
1:30 PM–3:00 PM
△ The Geriatric Psychiatrist as Family Caregiver—Lessons Learned
Chair: Benjamin Liptzin, MD
Faculty: Joel E. Streim, MD
Christopher C. Colenda, MD, MPH

In this session, three experienced geriatric psychiatrists will describe the challenges of caring for older relatives with cognitive, physical or emotional challenges.

1:30 PM–3:00 PM
◆ Diverse International Approaches to Online Education in Geriatric Psychiatry
Chair: Mark J. Rapoport, MD, FRCPC
Faculty: Timothy E. Lau, MD, FRCPC, MSC
Melinda S. Lantz, MD
Damien Gallagher, MB, MD, MRCPsych

This session will bring together description and evaluation of innovative and diverse international approaches to online education in geriatric psychiatry, including undergraduate, postgraduate and continuing medical education.

1:30 PM–3:00 PM
◆ On the Move: Home-Based Experiences and Educational Milestones in Geriatric Psychiatry Fellowship
Chair: Susan M. Maixner, MD
Faculty: Randall Espinoza, MD, MPH
Sandra S. Swantek, MD

This workshop will define and explore the importance of home visits, and the role these visits play in geriatric psychiatry education. Milestone development for geriatric psychiatry fellowship will be presented, with a focus on milestones for home-based rotations. Results of a national program director survey of home-based rotations will demonstrate the multitude of in-home training opportunities. Local program experiences with home visits, challenges, and benefits to the community will be discussed.

1:30 PM–3:00 PM
◆ Cognition and Functioning in Older Patients with Schizophrenia: Recent Research
Chair: John Kasckow, MD, PhD
Faculty: Carl I. Cohen, MD
Tarek Rajji, MD
Discussant: Philip D. Harvey, PhD

This symposium will examine recent research focusing on cognition and functioning in older patients with schizophrenia. Topics to be covered include: (1) the effect of institutionalization on functional status; (2) the ability of this population to engage in telehealth interventions; (3) longitudinal studies examining what factors predict worsening cognition and functioning; (4) how cognitive status and age affect functional status in individuals with schizophrenia across the lifespan.

1:30 PM–3:00 PM
◆ Innovative Models of Geriatric Mental Health Services in Long-Term Care
Chair: Allan A. Anderson, MD
Faculty: Leo J. Borrell, MD
Junji Takeshita, MD

This session will focus on model programs of delivering quality geriatric psychiatry and geriatric mental health services to long-term care (LTC) facilities. Three presenters will discuss their approach to providing services to LTC facilities, including a model for a solo practitioner, a model utilizing a large multidisciplinary group, and a model at an academic center utilizing residents and fellows.

1:30 PM–3:00 PM
◆ Emerging Models of Psychiatric Services in a Pioneer Accountable Care Organization: Personal Reflections of Psychiatrists on the Front Line
Chair: Gary J. Kennedy, MD
Faculty: Sally Ricketts, MD
Mirnova E. Ceïde, MD
Paula Marcus, MD

Psychiatrists are playing key roles in Accountable Care Organizations but to date little has emerged describing the variety of the care models they employ or the challenges they have addressed. In this session psychiatrists from Montefiore Medical Center will describe their practice models, compare and contrast them to established services, and offer personal reflections on the experience.

1:30 PM–3:00 PM
◆ Research Awards Paper Session

Sponsored by the AAGP Research Committee
Chair: Eric Lenze, MD

This session will feature presentations by all three AAGP Research Award winners, providing an opportunity to hear from one of the field’s most eminent scientists and two of the most promising junior researchers:

- The 2014 AAGP Distinguished Scientist Award, which is based on the body of original scientific works accomplished during the course of a career as well as mentorship of the careers of successful contributing junior researchers in the field of geriatric psychiatry.
- The Barry Lebowitz Early Career Scientist Award, presented for the best original research paper submitted by a scientist in a fellowship or holding an academic rank no higher than assistant professor.
- The Member-in-Training Research Award, presented for the best original research primarily performed by a medical student, resident, or fellow.
3:15 PM–4:45 PM  
Training Psychiatry Residents and Fellows in Quality Improvement: Geriatric Psychiatry Can Help Lead the Way
Chair: Gary Epstein-Lubow, MD  
Faculty: Robert J. Boland, MD  
Jospeha A. Cheong, MD  
Maria Llorente, MD
Participants in this session will learn strategies for teaching quality improvement to psychiatry residents and fellows. Dr. Robert Boland will describe the history of quality improvement education in psychiatry. Dr. Josepha Cheong will present an overview of the VA Chief Residents in Quality and Patient Safety (CRQS) Initiative. Dr. Gary Epstein-Lubow will present the quality improvement curriculum for psychiatry residents at Brown University. Dr. Maria Llorente will discuss the presentations from the perspective of federal attention to physician training in quality.

3:15 PM–4:45 PM  
Senior Investigator Workshop on the New NIH Policies for Research Funding and Program Opportunities
Sponsored by the AAGP Research Committee
Chair: Helen Lavretsky, MD  
Faculty: Molly V. Wagster, PhD  
Jovier Evans, PhD  
Discussant: George Niederehe, PhD
The AAGP Research Committee has organized this workshop with invited staff and program officers from the National Institute of Mental Health and the National Institute on Aging, who will focus on the review of the ongoing programmatic transitions, program developments, and funding opportunities within the NIMH and NIA.

3:15 PM–4:45 PM  
Update on Evidenced-Based Practice in ECT
Chair: William M. McDonald, MD  
Faculty: Robert M. Greenberg, MD  
Charles H. Kellner, MD  
Discussant: Georgios Petrides, MD
The research in ECT continues to evolve with new insights that have practical implications to ECT practice. Recent developments include ultrabrief pulse technology, novel electrode placements such as bifrontal, changes in anesthesia practice (e.g., the use of short acting narcotics and benzodiazepine antagonists) and the continued research into maintenance strategies after an acute course of ECT. This symposia will outline current research and provide practical applications to a clinical ECT service.

3:15 PM–4:45 PM  
Discussion Roundtables
Earn CME by participating in a small-group, in-depth discussion on a topic that interests you. Watch your e-mail for sign-up information in January.
Connecting the Dots: A Case of Shy Drager Syndrome (MSA-C)
Faculty: Adriana Sofia P. Perilla, MA
This is a case of an elderly patient who presented with depressive symptoms and memory difficulties. Upon chart review he was noted to have atypical signs and symptoms consistent with a rare diagnosis of multiple system atrophy–cerebellar type. Therapeutic management included multiple antidepressant medications over a 6-year span with suboptimal management of orthostatic hypotension. He had been managed independently over four different disciplines each with their own diagnostic work-up and diagnostic impressions.

Lithium Re-Challenge in a Medically Complicated Patient with Longstanding History of Bipolar Disorder Type I Following Renal Failure and Kidney Transplantation: Aging with Bipolar Disorder
Faculty: Erica C. Garcia-Pittman, MD
Learn about the case of a 62-year-old married white female with multiple medical problems, including hypertension, dyslipidemia, diabetes mellitus, cataracts and end-stage renal disease requiring hemo-dialysis and renal transplantation, as well as, a longstanding history of bipolar disorder type I and mild cognitive impairment. Patient was treated with Lithium for 30+ years beginning at age 18, with discontinuation of Lithium at age 50 following evidence of chronic kidney disease and renal failure. The patient was referred to the Geriatric Psychiatry Resident Clinic after her most recent psychiatric hospitalization. This case will discuss the patient’s clinic course, coordination of care with her providers (PCP and nephrology) as well as a discussion of monitoring parameters and medication adjustments since referral to clinic. Discussion will also address concerns regarding this patient’s functional and cognitive impairments related to her chronic medical illness, chronic history of bipolar disorder as well as history of end-stage renal disease.

GMHF Exceptional Donors & Honors Scholars Reception
(INVITED PARTICIPANTS—FOR HIGH DONORS TO THE GMHF AND HONORS SCHOLARS)
MONDAY, MARCH 17 (CONT.)

9:45 AM–11:15 AM
A Systematic Approach to the Pharmacotherapy of Late-Life Mental Disorders
Chair: Benoit H. Mulsant, MD, MS, FRCPC
Faculty: Eric Lenze, MD
Tarek Rajji, MD
This symposium will review evidence on pharmacotherapy for late-life depression, late-life anxiety disorders, and agitation or aggression associated with dementia, and discuss how this evidence can be applied in clinical practice to improve treatment outcomes.

10:00 AM–11:00 AM
AAGP Continuing Medical Education Committee Meeting

11:30 AM–1:00 PM
Electroconvulsive Therapy as a Treatment for the Behavioral Disturbances of Dementia
Chair: Brent Forester, MD
Faculty: Shawn M. McClintock, PhD, MSCS
Steve Seiner, MD
Deepa Acharya, PhD
This session will begin with a description of behavioral disturbances of dementia, and its impact on quality of life, rate of institutionalization, and caregiver burden. The faculty will discuss pharmacological and behavioral interventions for agitation and aggression in dementia. The speakers will discuss the neurocognitive effects of electroconvulsive therapy (ECT) in geriatric patients. Finally, they will discuss their prospective study on the safety and efficacy of ECT as a treatment for agitation and aggression in dementia.

11:30 AM–1:00 PM
The Clinical Management of Late-Life Depression: Implications for Signal Detection and Treatment Outcome
Chair: Bret R. Rutherford, MD
Faculty: Mark Miller, MD
J. Craig Nelson, MD
Discussant: Steven Roose, MD
Presentations in this session will provide the necessary background to generate a discussion of the costs and benefits to intensive clinical management in the clinical as well as drug development setting. Personalized clinical management strategies tailored to the treatment context rather than a ‘one-size-fits-all’ approach will be explored.

11:30 AM–1:00 PM
Modifiable Risk Factors for Neurodegeneration
Chair: Davangere P. Devanand, MD
Faculty: Gary Small, MD
David A. Merrill, MD, PhD
Jose A. Luchsinger, MD, MPH
This panel will highlight the latest research on modifiable risk factors for neurodegeneration, including the impact of lifestyle choices and comorbid illnesses on cognitive decline and dementia.

11:30 AM–1:00 PM
Prisoner of Her Past: The Lasting Effects of Trauma in Late Life
Chair: Marc E. Agronin, MD
Discussant: Howard Reich
Prisoner of Her Past is a 2010 documentary film, produced by Kartemquin Films, that follows the journey of Chicago Tribune music critic Howard Reich as he travels to Europe to discover why his elderly mother, Sonia Reich, believes people are trying to kill her. This presentation will team up Howard Reich with geriatric psychiatrist Dr. Marc Agronin to talk about both lasting and emergent symptoms of PTSD within the context of a screening of the documentary.

11:30 AM–1:00 PM
Novel-mechanism Treatment Development for Late-life Depression and Anxiety Disorders: New Medications and New Methods
Chair: Eric Lenze, MD
Faculty: Daniel Blumberger, MD, MSc, FRCPC
Jordan F. Karp, MD
This symposium will review ongoing efforts by our multi-site group to develop and preliminarily test novel-mechanism pharmacotherapy for late-life depression and anxiety disorders. The symposium will discuss the rationale for new-mechanism treatments, recent pilot data, and efforts to use mechanistic biomarkers to show target engagement and mechanistic proof of concept.
If you are treating elderly patients, we can help you manage your risks to protect your practice.

We know that treating elderly patients comes with unique challenges. We have advised psychiatrists on over 42,000 issues, including those related to geriatric psychiatry, through our risk management helpline since its inception in 1997.

You need a trusted program that understands this and includes proactive risk management resources, offers expert advice, and boasts a proven claims defense record. As an ACCME-accredited provider, we educate psychiatrists to recognize and manage clinical risk.

Charles D. Cash, JD, LLM

More than just medical professional liability insurance.
Opportunities for Trainees AT THE ANNUAL MEETING

AAGP gladly welcomes students and residents at the Annual Meeting. The meeting is packed with educational sessions, committee and interest group meetings for members to get more involved, and some fun social events as well. There are also several events specifically designed for trainees. Additionally, AAGP offers options to help reduce costs for trainees to attend the meeting, through scholarships and assistance reducing hotel costs.

DEVELOPING YOUR RESEARCH CAREER
Sunday, March 16, 8:00 AM–10:00 AM
This meeting provides information on opportunities for new researchers in geriatric psychiatry and how to get started, obtain research training and support, and persist in the research field.

EARLY INVESTIGATOR POSTER PRESENTATIONS
Submissions due October 15.
Consult the Call for Presentations on www.AAGPmeeting.org for more details.
Early Investigator Posters feature research from those in the earlier stages of their career—medical students, residents, research or clinical fellows, or junior faculty (less than two years). The poster session will again include poster rounds, in which senior researchers will meet with the new investigators and any interested conference attendees to review and discuss the posters. Poster rounds are intended to facilitate interaction between senior faculty, young researchers, and the AAGP membership in a relaxed, collegial atmosphere.

Discounted Registration
AAGP offers steep discounts to students, residents, and fellows on general registration and the ticketed events, as well. Details can be found on the meeting registration form at www.AAGPmeeting.org.

Want to find a roommate to share hotel costs? Many students and trainees prefer to share hotel rooms to reduce hotel costs for the meeting. AAGP will assist students and residents by providing a contact list of those interested in this option. It is then the responsibility of those on the list to contact one another and make your own agreements and hotel reservations. If you would like to be included on the list, email kmcduffie@aagponline.org.

Questions about trainee events during the Annual Meeting? Contact Marjorie Vanderbilt at mvanderbilt@aagponline.org or 301-654-7850 x107.

SCHOLARS PROGRAM FOR MEDICAL STUDENTS AND GENERAL PSYCHIATRY RESIDENTS
Supported by the Geriatric Mental Health Foundation through private donations from AAGP members
The GMHF Scholars Fund, through the generous donations of AAGP members and staff, is providing scholarships for medical students and psychiatry residents to get involved with AAGP. A variety of scholarships will be offered, from subsidized memberships and/or meeting registration, partial travel support, to a few, prestigious full scholarships for travel and participation in the AAGP meeting and ongoing participation throughout the year. All trainees will participate in the educational programs for Medical Students and Residents, and the subsequent Mentoring Lunch. Applications were due October 1, 2013. www.AAGPonline.org/scholars

Saturday, March 15
Scholars Program for Medical Students and Psychiatry Residents 8:30 AM–11:15 AM
This program is designed to increase interest in geriatric psychiatry among medical students, inform about opportunities to learn more about clinical elective and research opportunities during medical school, and inform about opportunities available in psychiatry residency programs. The program also showcases the benefits of fellowship training in geriatric psychiatry, educates residents about the scope and practice of geriatric psychiatry, and fosters professional relationships to assist residents with career planning now and in the future. All trainees are connected with a mentor who can help them to further their understanding of the profession and enhance their academic learning.

Scholars Mentoring Lunch 12:45 PM–2:45 PM
Following the Scholars Program morning meetings, all program participants will attend a luncheon to meet individually with a geriatric psychiatrist mentor. This special event is an excellent opportunity to learn more about geriatric psychiatry and make a connection with a mentor who can assist you in making career decisions, connecting with others in the field, and advancing your academic achievements.

Honors Scholars Alumni Session 3:00 PM–4:30 PM
(OPEN TO ALL ATTENDEES)
Come to this special session to hear from three former Honors Scholars, who will each provide a presentation on the scholarly project they completed as part of the Scholars Program.

—All residents and medical students who are registered for the Annual Meeting are invited to join the Scholars Program and Mentoring Lunch, regardless of whether or not you are provided a scholarship to attend.
Registration is required. Sign-up for those without scholarships will open in December at www.AAGPonline.org/scholars.
Join your colleagues who have chosen to be represented by our professional team and our program which is endorsed by the two most prominent associations in your profession - the American Psychiatric Association and the American Academy of Child and Adolescent Psychiatry.

- Superior protection provided by Allied World Assurance Company rated “A” (Excellent) by A.M. Best Company
- Access to a Risk Management Attorney 24 hours daily
- Individual Customer Service provided by our team of underwriters
- Telepsychiatry, ECT coverage and Forensic Psychiatric Services are included
- Many Discounts including Claims-Free, New Business and No Surcharge for claims *
- Great Low Rates
- Years in the previous APA-endorsed Psychiatry program count towards tail coverage on our policy
- Fire Damage Legal Liability and Medical Payment coverage included
- Interest-Free Quarterly Payments / Credit Cards accepted
The Geriatric Mental Health Foundation was established by the American Association for Geriatric Psychiatry to raise awareness of psychiatry and mental health disorders affecting the elderly, eliminate the stigma of mental illness and treatment, promote healthy aging strategies, and increase access to quality mental health care for the elderly.

The GMHF is governed by its own Board of Directors, has a separate budget from the AAGP budget, and is self-supporting. The GMHF revenues are dependent upon individual contributions to sustain the programs of the Foundation. The Foundation is the only one of its kind solely devoted to mental health and aging.

Learn more about the Foundation at www.GMHFonline.org.

ACTIVITIES AND SERVICES

Outreach and Education
To educate the public and provide resources, the GMHF maintains a presence on the Internet through its website, www.GMHFonline.org. The Foundation’s site features consumer information, news, resources, and a find-a-doctor feature, which lists psychiatrist members of the American Association for Geriatric Psychiatry who are accepting new patients. The Foundation’s aging and mental health series of brochures covers such topics as anxiety, depression, substance abuse and misuse, healthy aging, caregiving, sleep disorders, and disaster preparedness. Single copies of brochures are provided free of charge; bulk quantities may be purchased at cost.

Scholars Fund
In its fifth year, the Geriatric Mental Health Foundation’s Scholars Fund is designed to expose medical students and young physicians to the rewarding field of geriatric psychiatry in an effort to increase the number of medical professionals expertly trained to care for the growing older population. Funds will be used to support Scholars’ activities during the AAGP Annual Meeting, including a structured mentorship program; provide scholarships to AAGP’s focused educational programs; pay for memberships in the Association to give trainees full access to all AAGP member programs and activities; and develop tools for medical students and residents to make informed choices about their medical careers. For a donation of $2,500, an individual or organization may support one trainee as an Honors Scholar for full participation in the Scholars Program. These prestigious scholarships will be named for the contributor (or his or her designee) and will be granted to the most highly qualified applicants as determined by a selection committee. Donations to the Scholars Fund received after October 1 will be applied to the 2015 program.

SUPPORT THE GMHF
Support the Geriatric Mental Health Foundation by:

1. Making a general contribution to support the important work of the GMHF.

2. Making a contribution to the Scholars Fund. Minimum contribution is $50.

All gifts are tax-deductible up to the amount permissible by law. All contributors to the Foundation will be recognized in the AAGP Final Program and GMHF website. Contributions can be made on the AAGP Annual Meeting Registration Form. To make a gift online at GMHF’s secure website, go to www.GMHFonline.org and click on the “How to Contribute” link, or phone 301.654.7850 ext. 100. If you prefer to mail your gift, you may send it to Geriatric Mental Health Foundation, 7910 Woodmont Avenue, Suite 1050, Bethesda, MD 20814.

ADMISSION

You must have either an AAGP Annual Meeting Badge or an Exhibit Hall badge ($40) to be admitted into the Exhibit Hall. Children under 18 years of age are free, but any child over the age of two will need to have his/her own badge. Parents/guardians of all children under age 18 must sign a waiver form at the Registration Desk before entering the Hall. Children must be accompanied by an adult.
How to Register

QUESTIONS? CALL AAGP AT 301.654.7850 x100 OR EMAIL REGISTRATION@AAGPONLINE.ORG

REGISTRATION FORM INSTRUCTIONS

SECTION A. PERSONAL INFORMATION
Complete information. All participants must be registered, and badges must be worn to gain entrance into all sessions and events.

SECTION B. FULL OR ONE-DAY REGISTRATION
Full Registration—Fee includes admission to educational sessions, Opening Plenary, Opening Reception, exhibit hall, and one copy of meeting materials. Residents and full-time students must mail or fax a photocopy of their student identification card when submitting the registration form to be granted the resident/student rate.

To help geriatric psychiatrists meet their Maintenance of Certification self-assessment requirement, a self-assessment component is available to those who register as full conference registrants (not one-day registrants).

One-Day Registration—Fee includes admission to educational sessions, exhibit hall, and AAGP social functions on the day registered. Also includes one copy of meeting materials.

SECTION C. INTENSIVE WORKSHOPS
Space may be limited for these programs—please register early.

SECTION D. GUEST TICKETS
Spouse/Partner $210/person
Admission to the Opening Plenary, Opening Reception, Exhibit Hall, and all non-ISS symposia. No CME/CE provided.

Opening Reception $85 Adult / $25 Child (4–12 years)
Admission to the Opening Reception is included in the Full and Spouse/Partner fee. Additional tickets may be purchased for $85 per adult/$25 per child. The number of tickets available for purchase on-site is limited.

Exhibit Hall Only $40/person
Admission to the Exhibit Hall is included in the Full, One-Day, and Spouse/Partner fee. Tickets are available to those accompanying a Full- or One-Day registrant. No ticket is required for anyone under 18 years of age. A waiver must be signed by a parent or guardian for those under 18 years old; the form will be available on-site.

SECTION E. GMHF ACTIVITIES
Contribute to the Geriatric Mental Health Foundation, AAGP’s consumer-education arm, while registering for the meeting. All donations are tax deductible to the extent allowed by law. For more information on the Foundation’s activities, please refer to page 39.

SECTION F. AAGP-PAC ACTIVITY
Support AAGP’s political action committee (AAGP-PAC) by attending a reception under the stars. Individuals may make voluntary contributions to AAGP-PAC using personal checks, made payable to AAGP-PAC, or with an individual Visa, MasterCard, or American Express credit card. Contributions from corporations and associations are illegal and will be returned. Under Federal law, only U.S. citizens or permanent resident aliens (green card holders residing in the U.S.) may contribute to, or be solicited for, a political action committee or a political campaign. Gifts to political action committees are not tax-deductible. See page 22.

SECTION G. MEMBERSHIP FEES: JOIN NOW AND SAVE!
NEW Members: Become a NEW Member while registering for the 2014 Annual Meeting and save on the cost of membership by qualifying for the lower member registration rate. See page 7.

Join AAGP at www.AAGPonline.org/membership
Complete either the Psychiatrist application (for psychiatrists, psychiatry residents (M.T.s), or medical students) or the non-psychiatrist application (for all other disciplines). You can pay online directly with a credit card.

If you prefer to pay for membership as part of your Annual Meeting registration form, proceed to the payment section, then select “Free Order” instead of “Credit Card” as your payment type. In the comments section, please note that you have paid with your Annual Meeting registration and how that payment and registration form were sent (i.e., mailed/faxed on a given date).

SECTION H. 2014 AAGP ANNUAL MEETING RECORDINGS
Sessions from the 2014 Annual Meeting will be available as synchronized digital audio/PowerPoint presentations. Hear sessions you weren’t able to attend, print handouts, make session notes, and even download presentations to your MP3 player for a totally portable learning experience. Best of all, you can earn additional AMA PRA Category 1 Credits™. Go to www.softconference.com/aagp/ for more information.

SECTION I. METHOD OF PAYMENT
Registration payment may be made by credit card (Visa, MasterCard, or American Express) or check drawn on a U.S. bank and made payable to AAGP. All payments must be made in U.S. dollars. AAGP cannot assume fees for foreign bank transfers. Forms received without payment will not be processed and the registrant WILL NOT be registered for the conference. Please write legibly—failure to do so may result in delays.
How to Register (cont.)

FOUR WAYS TO REGISTER

Please register by one method only.

1 ONLINE
   Please refer to the conference site:
   www.AAGPmeeting.org

2 MAIL
   AAGP Meeting Registration
   7910 Woodmont Avenue, Suite 1050
   Bethesda, MD 20814

3 FAX
   301.654.4137 (Credit card payment only)

4 ON SITE
   If forms and payments are not postmarked by February 20, 2014, you must register onsite.
   Onsite Registration opens Thursday, March 13 at 4:00 PM.

CANCELLATION POLICY

A letter requesting a refund should state the registrant’s name, address and to whom the refund should be made payable. The registration fee, minus a $75 processing fee, is refundable if written notice is received by AAGP on or before February 20, 2014. After this date, the registration fee is not refundable. Refunds will be issued 6–8 weeks after the meeting.

AAGP is not responsible for any charges or cancellation fees assessed by airlines or hotels.

AMERICANS WITH DISABILITIES ACT

AAGP wishes to take any steps required to ensure that no individual with a disability is excluded, denied services, segregated, or otherwise treated differently due to the absence of auxiliary aids and services identified in the Americans with Disabilities Act.

If any such services are necessary in order to participate in the AAGP 2014 Annual Meeting, please communicate your needs to AAGP in one of the following ways on or before March 1, 2014.

MAIL: American Association for Geriatric Psychiatry
   7910 Woodmont Avenue, Suite 1050
   Bethesda, MD 20814

E-MAIL: registration@AAGPonline.org

VOICE MAIL: 301.654.7850 x100 and a staff representative will return your call

FAX: 301.654.4137

AAGP cannot ensure the availability of appropriate accommodation without prior written notification of need.

DISCLAIMER

Registrants should understand that the views presented at the AAGP 2014 Annual Meeting are those of the presenters and not necessarily the official views of AAGP. By registering for the meeting, registrants agree to release and hold harmless AAGP and its officers, directors, employees and agents from liability that evolves from their use of medical procedures discussed or from damages and/or liabilities that evolve from registrants’ attendance at the meeting and the attendance of registrants’ family members, staff, and invitees.
